International

EVERYWHERE BISLEY

Life may be unpredictable, but you can always count on Bisley.

We're a design and manufacturing powerhouse. For over eighty years, we've been quietly creating innovative products that meet the evolving needs of our working world.

And now more than ever, the workspace is ripe for reimagination.

While the world may evolve, our passion for design never changes. Our drive, energy and capabilities mean that we can produce whatever you need, in the volumes you need, wherever you might need it.

Here, you'll find an overview of everything that Bisley can offer you and your workplace. Our extensive, bespoke ranges can help maximise your workspace by providing intelligent and useful solutions.

You'll find everything you need to create organised storage systems that work for you, whether you're in the office or at home.

We're proud to make unique, innovative furniture that doesn't compromise on style – so you can thrive anywhere.

SYSTEMS STORAGE

Design a workspace you can call your own.

Hardworking storage that is suitable for all your activities in the office is fundamental. Bisley can help you create integrated working environments that enhance focused working and collaboration, but can also evolve with your changing needs. Our broad range of sleek storage systems provide you with flexible options to help you design smart, multi-purpose storage solutions.

Be

Be is a dual aspect, integrated furniture and storage solution, which connects people and the workspace, creating environments that inspire performance.

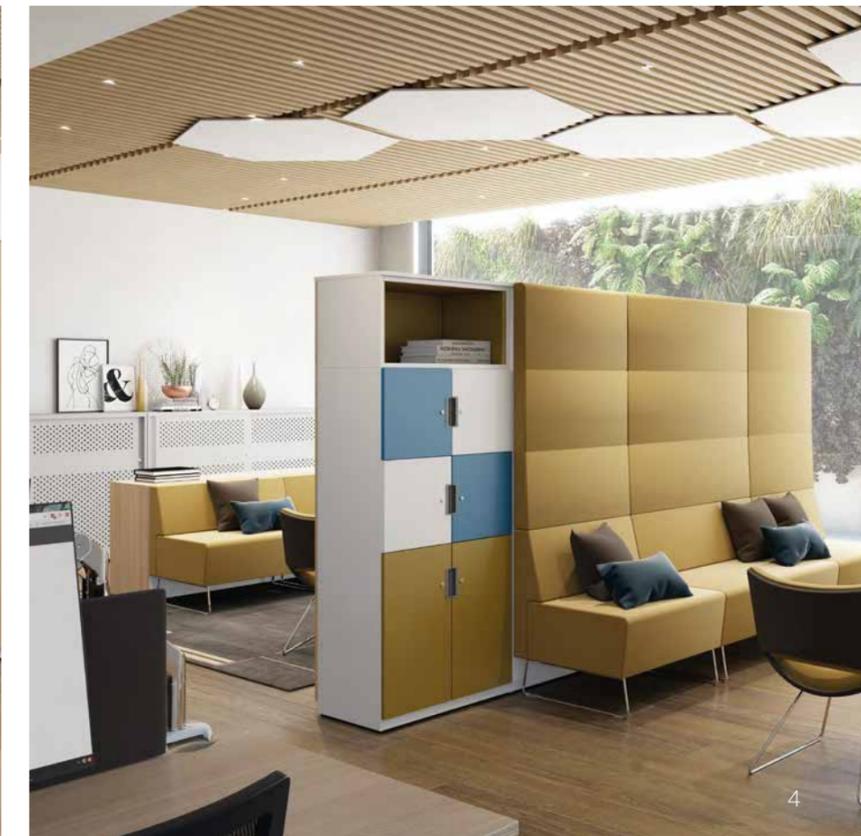

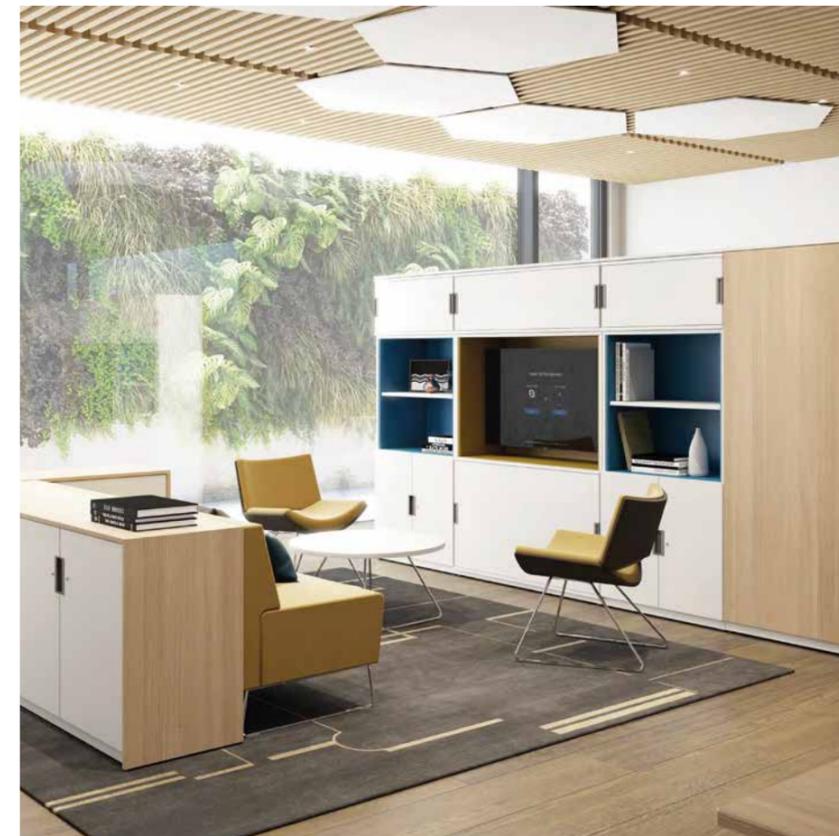

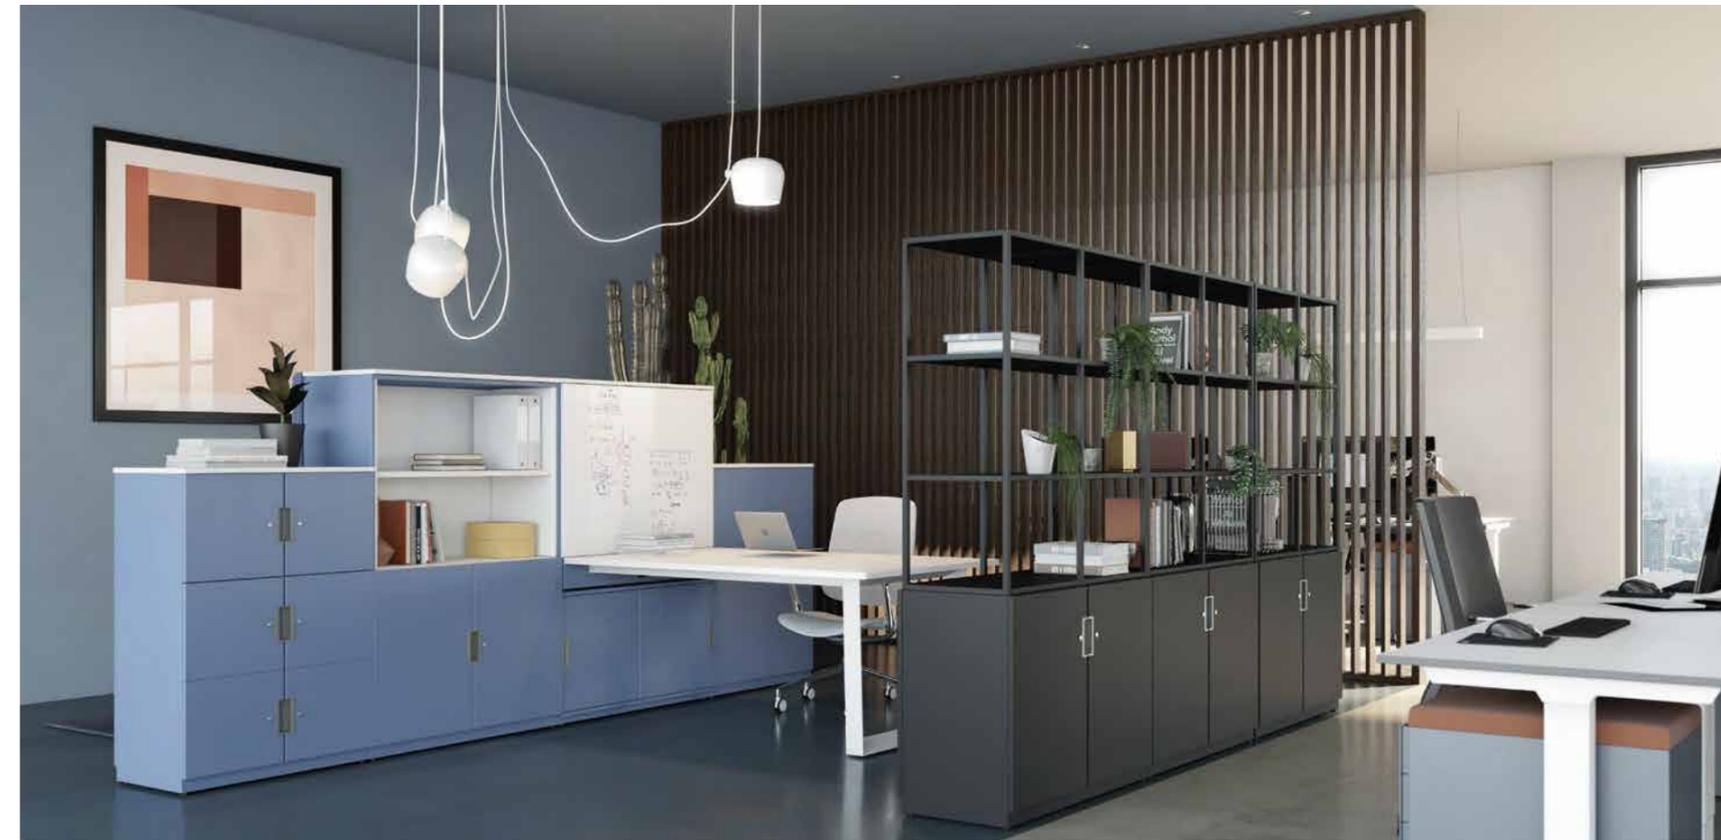

The office landscape needs to adapt to a more agile way of working. Inspired by the need for a versatile, open working environment, Be offers perfect combinations for a mix of interchangeable workspaces.

Adaptable zones foster collaboration and provide areas to meet, individual space to focus, with social areas to interact, relax and recharge.

Designed to be different, Be uses unique colour combinations, mixing wood and steel surfaces, with environments which cater for open and closed storage, and the power to display and perform.

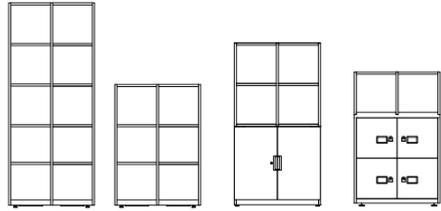

Be is available in a pre-defined range of the most popular options or can be tailor-made to make an individual workspace

Perfect combinations for a connected workspace.

- Available in 34 steel finishes, 8 wood finishes, 10 fabric options and 3 glass finishes
- Range consists of locker doors, cupboard doors, sliding doors, magazine shelves, bookcases and frame toppers.
- All Be products have a ten-year guarantee

Outline

We provide the Outline, you do the rest.

Ideal for establishing a distinctive workspace with a personal touch, Outline allows you to shape your environment for a sleek, minimalist and modern look, so you can focus and stay on top of your workload in style and comfort.

Crafted from hand-welded steel for a seamless finish, Outline is a robust yet elegant frame that allows natural light through and separates a room, without building walls. Highly customised to the unique design of your workspace, Outline by Bisley suits perfectly with existing Bisley products, sitting alongside or on top of storage units, including the Be and LateralFile ranges, or, as a stand-alone piece – working to fit with your needs.

Make Outline work hard for you - with an array of colour finish options and accessories including shelves, planters, storage cubes and hanging white boards - you have everything you need to make your space truly individual.

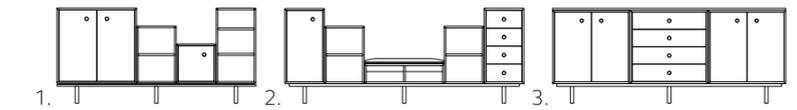

Inspired by the need for versatile and open working environments, Outline by Bisley works as a contemporary multi-purpose zone divider and display unit, ideal for establishing distinctive spaces to work, collaborate or relax.

- Choice of 34 steel finishes and 8 wood finishes
- Multiple accessories available
- 400mm & 470mm deep options to suite with Be and LateralFile
- All Outline products have a ten-year guarantee

Bridge

Bridge by Bisley, the modern credenza that brings together storage, stowage, and room division in one seamless system.

With the ability to provide multiple functions in multiple spaces, Bridge can be used as an unobtrusive space divider, a meeting room credenza, a 'skyline' style welcome setting, or a spontaneous breakout area. From providing an impromptu place to perch, or a relaxing place to recharge, Bridge's breadth of steel colours, wood textures and vibrant fabrics mean that the fun is in creating exactly what you imagined.

At the heart of our design is stowage. Bridge provides temporary stowage for bags and other personal items and its dual-facing nature gives you flexible options, including a handy lockable space for your valuables and technology, cable management, and decorative display.

1. SPACE DIVIDER

Utilise Bridge's dual-facing nature to create subtle space division or wayfinding through the workplace, with smart storage access from both sides.

2. SKYLINE

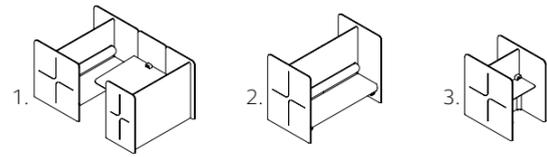

A mixture of module heights mimic a city skyline. These settings are ideal for welcome areas and 'breakout zones'. The use of the seat pad unit provides a relaxing place to recharge or an impromptu place to perch throughout the working day.

3. MEETING ROOM CRENDENZA

Inspired by the traditional meeting room credenza, but re-imagined for the contemporary office and work styles, these suggested settings mimic the classic single height credenza, with the versatility to create a professional or playful addition to the meeting space.

- Choice of 33 steel finishes, 7 wood finishes and over 100 fabric options
- Choice of 4 leg options, 2 handle types and 3 back panel styles
- All Bridge products have a five-year guarantee

Quarters by Bisley

Developed to provide a haven away from the hustle and bustle of a busy workplace, Quarters booths create a secluded space for individual focused work, a private place to take a call, or a cosy, comfortable meeting space for creative collaboration.

Having an inclusive, light space, where you can also store your belongings, is vital for wellbeing. The specialised sound dampening panels envelop the storage component, so individuals are always connected to the hubbub of the office but have a buffer – a tranquil and relaxing retreat to work in, whether alone or in groups. Uniquely designed with personal storage embedded for easy access, Quarters ensures that all your belongings are tucked safely away within the booths while you work.

Partnering with British design icon Anglepoise, Quarters has been created to reflect their world-renowned design, with the radius of each Quarters panel and stitch detailing matching that of the iconic Type 80 lampshade, distinguishable by its unique halo light-escape effect.

1. MEETING BOOTH

Multifunctional two, four and six person booths encourage collaboration whilst providing a subtle buffer to the rest of the office.

2. DOUBLE BOOTH

Double booths provide practical space for ideas and co-working. Choose from soft bench seating or sitting and standing height desks, plus an array of storage options.

3. SINGLE BOOTH

Single booths provide a private, quiet space with everything you need for maximum productivity. With embedded storage, power and acoustic panels, concentrated work becomes easy within an office environment.

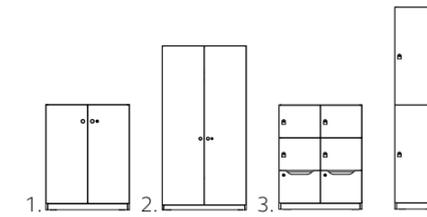

- Multiple fabric options and a choice of 8 wood and 34 steel finishes
- A range of steel and laminate accessories available
- Optional power and multiple locking solutions available
- All Quarters products have a five-year guarantee

BISLEY + ANGLEPOISE®

Pren

A collection of freestanding lockers, wardrobes, and cupboards that make specifying your entire storage system refreshingly simple.

With purpose beyond storage, Pren's freestanding units act as zone dividers throughout the office, creating defined neighbourhoods wherever you need. And with contra-facing units available at different heights, you can accessorise them with planter tops for the added benefits of mood-boosting biophilia, or create an extended, standing height workbench with a sleek oversailing top.

Spanning classic, warm wood-effect tones and solid colour finishes, Pren is available in a variety of laminates, matching [LockerWall's](#) broad palette, creating symmetry for your storage. And almost entirely made in-house, the lead times remain significantly shorter than average.

1. WARDROBES

Available in a variety of heights and widths with coat rails and a selection of lock options. The taller options include fixed MFC shelves. All wardrobes feature a round wooden handle.

2. LODGES

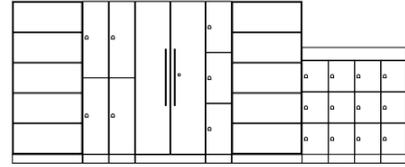

Secure personal storage, Pren lodges are available in a range of heights and door options, with a variety of internal configurations including coat rails and fixed shelves. Compatible with both smart, mechanical and traditional locks.

3. CUPBOARDS

Flexible, lockable office storage available in a range of heights and widths. Pren cupboards feature round wooden handles and adjustable steel shelving with under-shelf filing.

- A choice of 11 wood finishes
- A range of accessories available, including planters, decorative tops, and shelves
- All Pren products have a five-year guarantee

LockerWall

Designed to fit around you.

Inspired by the traditional locker system, but re-imagined for the contemporary office space, LockerWall by Bisley gives you the scope to create an efficient, stylish storage solution for any kind of environment.

LockerWall is the fully integrated, optimum storage and smart locker system that delivers dependable security, without dominating your space or sacrificing your style. Utilising the latest smart locking software, including networked and hard-wired locks, personal storage and facility management has never been simpler and safer. With LockerWall, you can be reassured that your belongings are safely stowed away, and can be charging ready for the working day, with optional discreet USB power inside each locker.

- Choose from 34 steel finishes, 11 wood finishes, 5 compact grade laminate finishes and 50 fabric options
- Mix and match internal accessories and decorative additions
- A range of finishing panels are available to order separately
- Multiple locking solutions available including smart locking technology
- LockerWall has a five-year guarantee

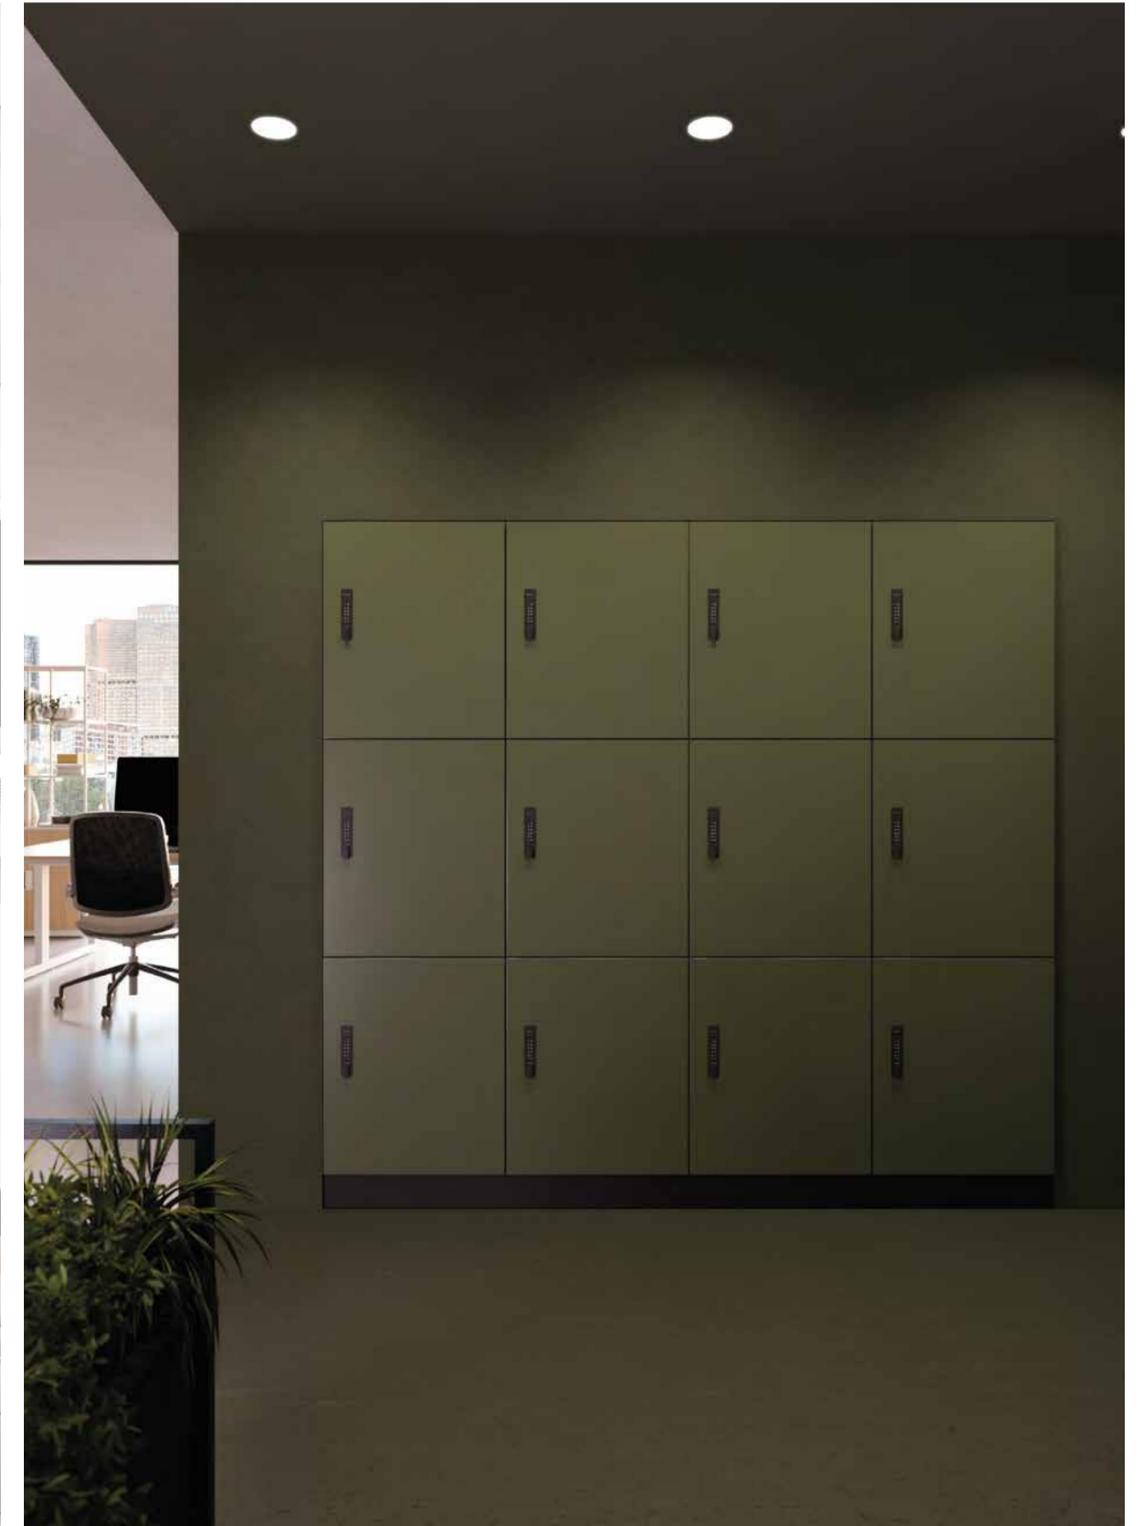

LockerWall

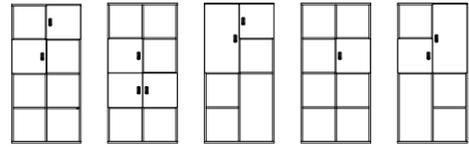

Storage that works harder.

The rise in personal storage requirements is at the forefront of a modern, productive workplace. What was once banished to cloakrooms or basements is now a firmly established part of the front office landscape. Our personal storage solutions can help free up space, promote productivity, and give everyone a sense of belonging.

LockerWall is not only a storage system - the lower height lockers can create zoning and space division, giving a workplace defined neighbourhoods. The standing height options double up as an impromptu work surface, or they can be accessorised with planters to bring in mood boosting biophilia.

Kubbi

The perfect snug for your storage.

Introducing the first collection in the family, Kubbi is your perfect stowage solution for the workplace. Lock away your personal belongings for the day in one of Kubbi's cosy compartments. Tailored to suit you with a variety of cube combinations, including open display cube compartments, Kubbi gives you the room to build and tailor your workspace.

With storage at the heart, Kubbi connects your space and can be used as a stylish and useful room divider, all without building any walls. Dual facing, Kubbi can act as a standalone piece, or you can choose to create larger configurations by connecting several units together.

Available in a range of laminate finishes, Kubbi can be customised to suit you.

- Choose from 11 wood finishes
- A choice of locking options available
- Kubbi has a five-year guarantee

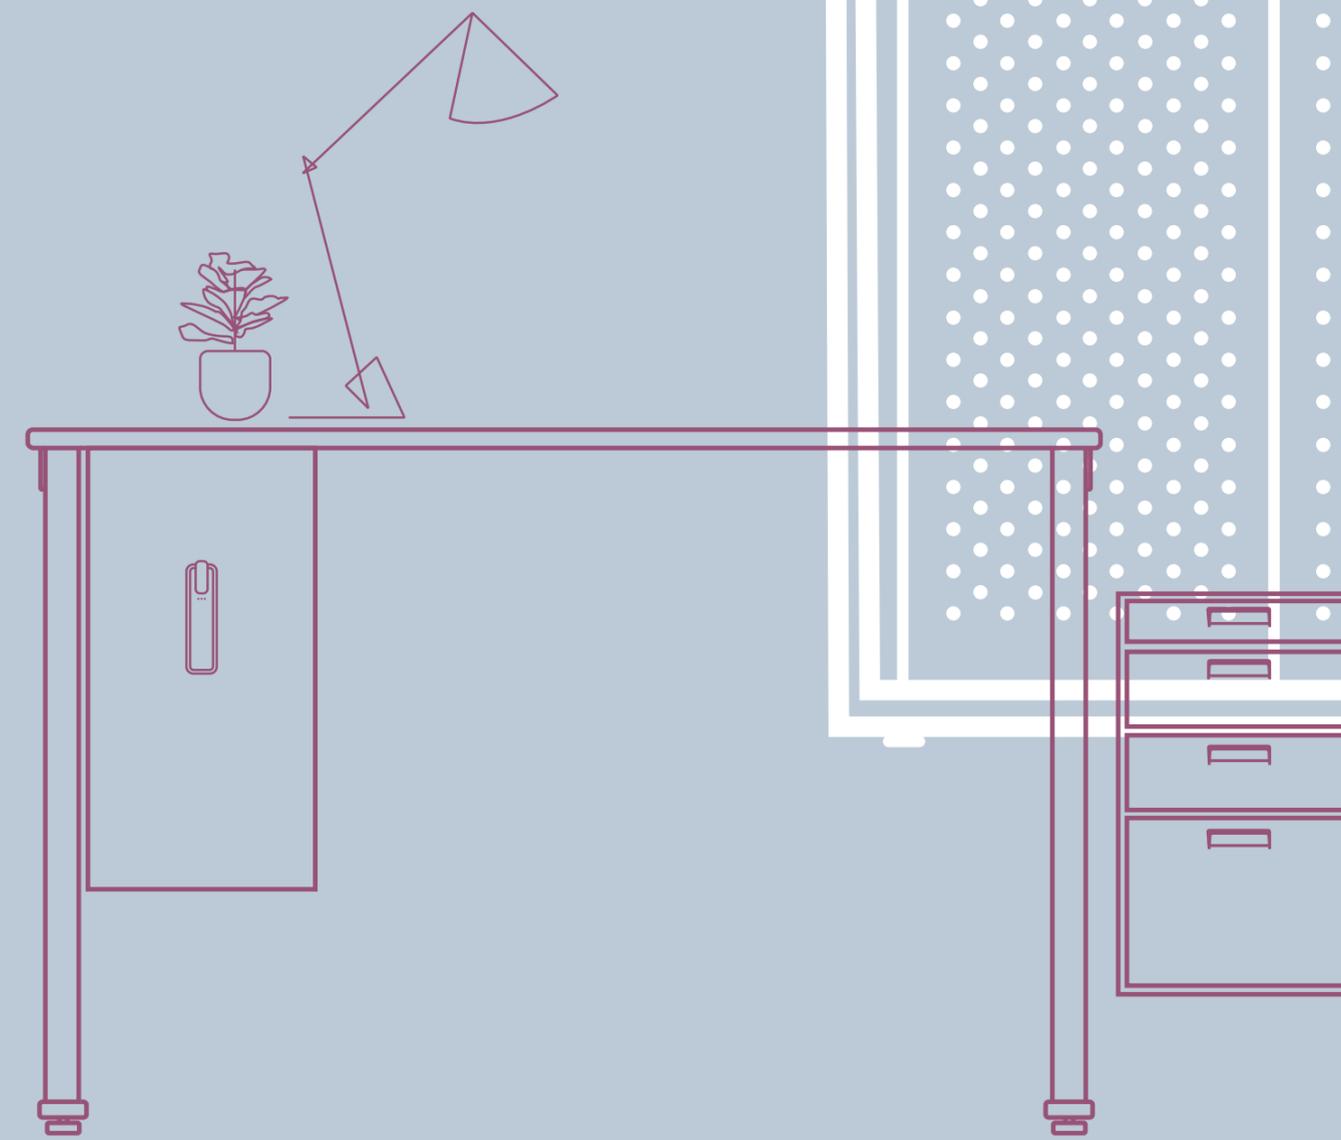

DESK SYSTEMS

As workplaces adjust to focus on individual rather than shared spaces, personal and safely accessible storage will play an important role.

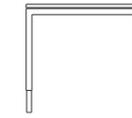

Bisley's great range of design options allow you to stay connected with your work, while always maintaining a clutter free, calm, working environment. You can feel reassured that not only are your belongings stowed safely within your personal workspace, but that they are always within reach, for maximum productivity.

From pedestals to towers to your very own work Buddy; we can make everything you need to keep items safe, secure, and close at hand.

Quattro

Desk system

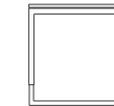

The ideal team collaborative table, simple standalone desk, or a full benching solution to encourage conversations and creativity. Easily customisable, Quattro's minimal, modern styling and quality finish options mean that this desk is an aesthetically simple yet pleasing solution for any workplace.

| Type | Height Adjustability | Accessories |
|-----------------------|---|---|
| Desk | <ul style="list-style-type: none"> Manual (Pin Or Crank) Fixed Height | <ul style="list-style-type: none"> Modesty Panel CPU holder Cable Management |
| Return | | |
| Conference Table | <ul style="list-style-type: none"> Fixed Height | <ul style="list-style-type: none"> Acoustic Screens |
| High Conference Table | | |

- Choose from an extensive palette of desktop colours (see page 47)
- Choose from a variety of leg frame colours (see page 47)

Square

Desk system

Taking Quattro and adding a horizontal floor bar completes the Square and offers great flexibility as part of a modular bench desk system for 'light touch' open office spaces or for a drop-in quiet zone. Easily customised, this desk's simple, modern styling and quality finish options provides an agile solution to any workspace.

| Type | Height Adjustability | Accessories |
|------------------|---|--|
| Desk | <ul style="list-style-type: none"> • Manual (Pin Or Crank) • Fixed Height | <ul style="list-style-type: none"> • Modesty Panel |
| Return | | <ul style="list-style-type: none"> • CPU holder |
| Conference Table | | <ul style="list-style-type: none"> • Cable Management • Acoustic Screens |

- Choose from an extensive palette of desktop colours (see page 47)
- Choose from a variety of leg frame colours (see page 47)

Tetra

Tetra C

The Tetra C-leg is great as a simple standalone desk or as part of an open office. This elegant yet functional system has a robust steel frame, a unique dual motor for easy height adjustability, designed to improve wellness and ergonomics for the user.

Tetra T

The Tetra T-leg desk is an advanced sit/stand system with future-proof features. The desk has sleek, clean-cut lines, a strong steel frame and features a unique dual motor for easy height adjustability, enabling a smooth transition between sitting and standing while also encouraging users to vary their posture throughout the day and further improve wellness.

Tetra Lite

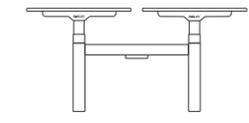

The Tetra Lite, as in the name, is a value-engineered version of the Tetra T but with a lighter steel frame and telescopic rails to allow one frame to fit a variety of sizes. Featuring a unique dual motor for easy height adjustability, the sit-stand aspect brings significant health benefits, encouraging well-being within the office environment.

| Type | Height Adjustability | Accessories |
|------------------|---|--|
| Desk | <ul style="list-style-type: none"> Manual (Pin Or Crank) Electric All Sit/stand | <ul style="list-style-type: none"> Cable Management |
| Return | | <ul style="list-style-type: none"> Modesty Panel Sensor |
| Conference Table | | <ul style="list-style-type: none"> Acoustic Screens CPU holder |

- Choose from an extensive palette of desktop colours (see page 47)
- Choose from a variety of leg frame colours (see page 47)

Duo

Desk system

The Duo desk has all the benefits of the Tetra range in terms of quality and styling, while allowing you to bench the desks together to create ergonomic workstations for an infinite number of people. The shared componentry provides simpler, cleaner lines and the advanced height adjustability enables a smooth transition between sitting and standing.

| Type | Height Adjustability | Accessories |
|-------------|--|---|
| Double Desk | <ul style="list-style-type: none"> • Manual (Pin Or Crank) • Electric At Sit/stand | <ul style="list-style-type: none"> • Cable Management • Sensor • Acoustic Screens • Cpu Holder • Advanced Control Panel With Memory Function & Height Reader |

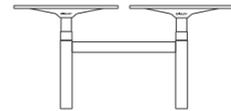

- Choose from an extensive palette of desktop colours (see page 47)
- Choose from a variety of leg frame colours (see page 47)

Smart

Single

The Smart Single desk is a single, standalone desk that has a dual motor frame that allows for easy height adjustability. Its design will suit any office with its slim leg design and telescopic cable management. As with all sit to stand desk systems, its proven to improve wellbeing.

Duo

The Smart range includes the Smart Duo desk, which is a double desk version of the Smart Single desk. With Smart Duo desk, you can create an ergonomic workstation for a group. The stylish design and clutter free telescopic cable management, the Smart Duo is suitable in almost every office environment.

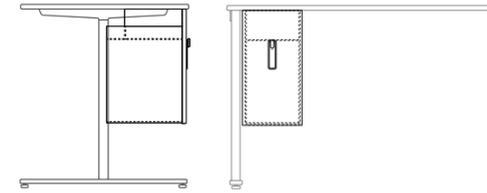

| Type | Height Adjustability | Accessories |
|--------|-------------------------------------|--|
| Single | • Electric Sit/Stand 650-1250 mm | • Advanced 4 Memory positions • CPU holder |
| Duo | | • Cable Management • Integrated Anti-collision sensor |

- Choose from an extensive palette of desktop colours (see page 47)
- Metal frames only available in aluminium, white and black smooth finish

Buddy

Introducing Buddy, your right (or left!) hand man to help with all your office storage needs - for you and only you.

Designed to stow personal belongings and frequently used office items, Buddy has a choice of internal configurations and optional USB power, so that items can be stowed securely and conveniently.

An alternative to the versatile freestanding Note pedestal and Caddy, Buddy is a single-person desk-attached locker, the perfect addition to your working day!

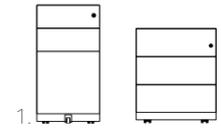

The compact and space efficient design allows you to stay connected with your work, while maintaining a clutter-free desk. With your office Buddy, you can feel reassured that not only are your belongings stowed within a safe personal workspace, but that they are always within reach, for maximum productivity.

Awarded the Design Guild Mark in May 2022

- Choose from an extensive palette of 22 steel paints
- Wooden front option with a choice of 8 laminate finishes
- Multiple locking solutions available
- Buddy has a five-year guarantee

Note Pedestals

Our Note Pedestals provide secure and convenient storage, and are the classic way to keep desks clutter-free.

A range of static or mobile pedestals with lockable drawers for secure storage of files or personal belongings. They can be used as additional under desk drawer space, or pull-out storage that extends your work surface.

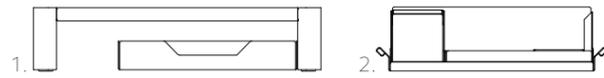

NOTE PEDESTAL

Our most popular pedestal, it has a seamed carcase, which complements our SystemFile and Essentials ranges. The unit is available static or mobile, and in a choice of heights, and comes with a personal storage drawer and drop-in pen tray.

- Choose from a broad range of 22 steel paints
- Wide range of internal options available
- Note Pedestals have a five-year guarantee

Platform and Mosaic

Platform

Elevate your working day with a Platform. With many of us working longer or more flexible hours, it's vital to make sure your monitor is at the correct and comfortable height. In a variety of widths to suit different screens and needs, Platform's minimalist design ensures that your display is always lifted.

Mosaic

We know that organisation can be difficult in an active and agile workspace. Organise your work materials meticulously around you with Bisley's new Mosaic range. Handy hooks and trays come in a variety of different sizes that can work together with your other work tools.

1. Platform

- Choose from 22 steel colours
- 1 fabric finish available
- Compatible with Mosaic hanging accessories
- Platform has a two-year guarantee

2. Mosaic

- Choose from 22 steel colours (tray base color is always Anthracite)
- Mosaic has a two-year guarantee

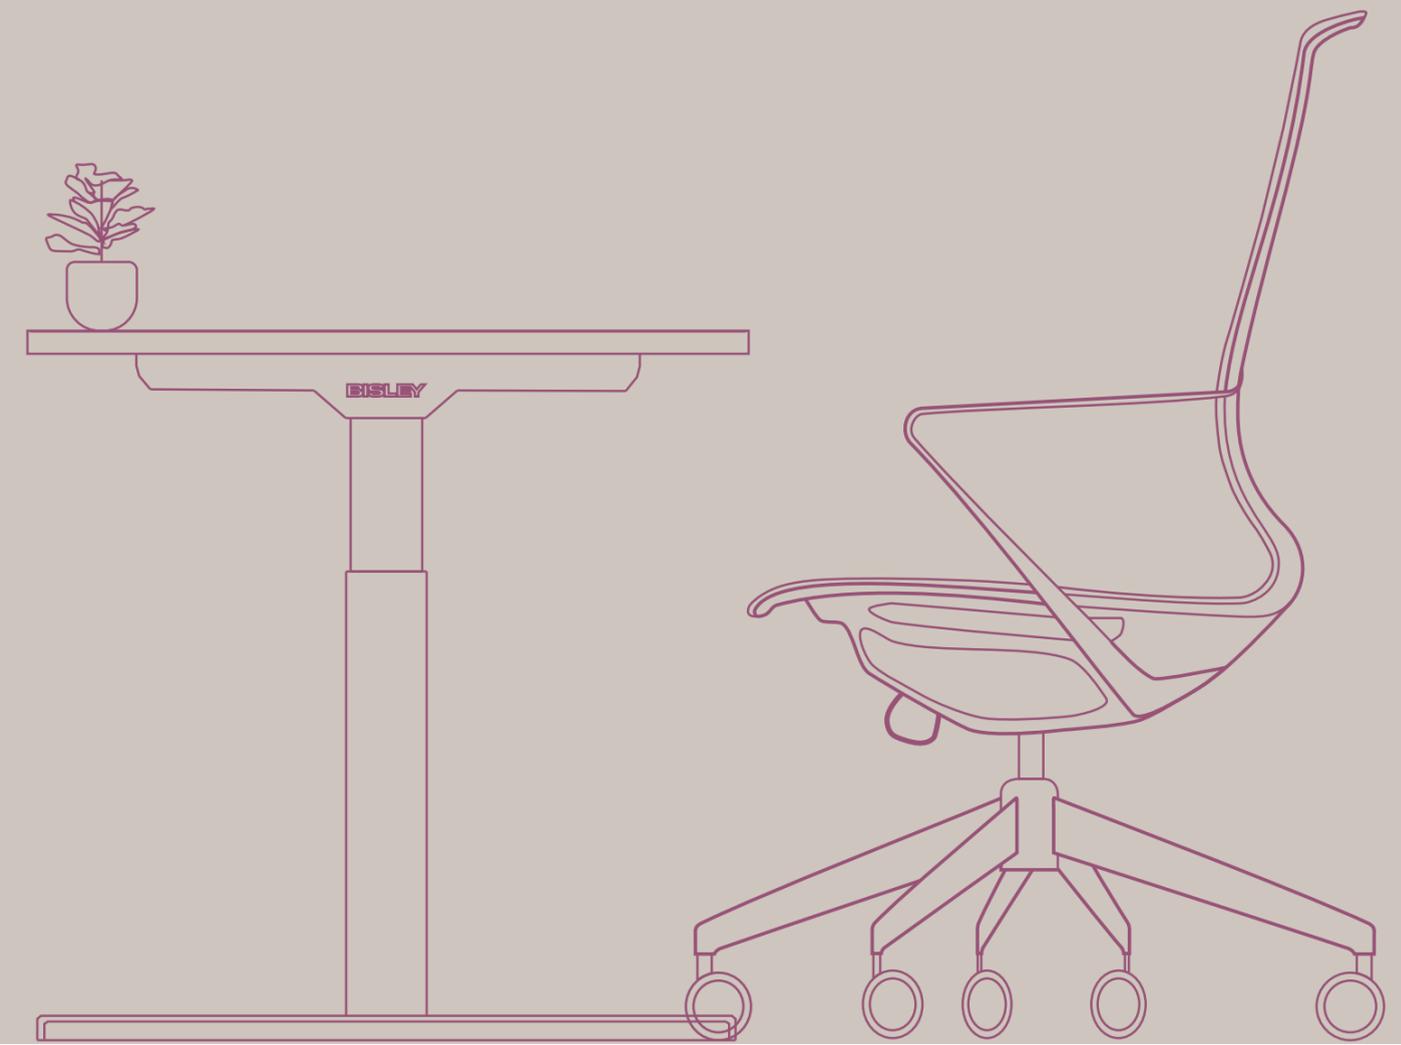

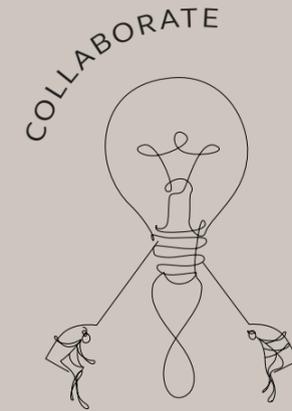

SEATING SYSTEMS

Most workspaces require a variety of seating options, from adjustable desk chairs to side-chairs which are ideal for meeting or recreational spaces. The Bisley range offers thoughtfully designed options for all sorts of settings.

Whether its bringing people together formally or informally, for intense concentration or relaxed conversation, offering the correct seating options is known to increase productivity, relaxation, and brings versatility to most working environments.

Our seating range offers an array of possibilities - you can swap bases for elevation and comfort, as well as a simple side chair which acts as a stylish solo piece.

Levante

Designed and created in Italy.

Levante is a fully upholstered, ergonomically composed chair featuring key mechanisms to support your posture throughout your working day.

The range is extensive, starting from the basic desk chair, to a self-adjusting alternative, up to our premium chair which enables the ultimate performance. Thoroughly studied to ensure a high-quality lumbar regulation system is in place, Levante's luxurious fabric covers cold molded foam to embrace the user with adjustable armrests to prevent strain on arms and shoulders.

10
YEARS
WARRANTY

- Choose from an extensive palette of desktop colours (see page 47)

Younique

Design by Massimo Costaglia

YOUNIQUE® features the Synchro system - the ability to rotate the backrest and seat. The Synchro is a type of mechanism that is widely used today by most office seating manufacturers. This common system allows you to synchronize the retraction of the backrest with the lowering of the seat (while the backrest moves back by 27°, the seat lowers by 13.5°), inviting an ergonomic posture, always keeping the feet on the ground, whatever the inclination of the backrest is.

A smooth movement that can be locked in 5 positions, 4 backwards and 1 forward; the inclination of the backrest starts with 4° in negative (which gives you the right spine support when working at computer) up to a backrest inclination radius of 27° back. Using the right knob with a simple rotation in 3 steps, you can quickly adjust the backrest thrust spring, which can be calibrated according to weight up to 130 kg.

10
YEARS
WARRANTY

- Simple and easy-to-use adjustments
- Patented hinge system for maximum recline
- Mid- or high-back
- 2 mechanisms: Synchronized or standard pneumatic height adjustment
- Fixed arms
- Plastic or polished base

Musa

Multipurpose modular System

Musa is the perfect solution for the changes in our new way of working. This multipurpose system of upholstered self-standing panels can be quickly assembled without any tools and is suitable for any existing furniture. The panels are made of recyclable materials and are sound-proof certified, guaranteeing protection from background noise and ensuring good soundproofing within the individual workspace.

Musa is a system without application limits - from the open plan office to the waiting areas and even to home working environments. Musa fully meets today's increasing needs to divide open plan spaces into cosy intimate environments in which to work alone or in groups.

10
YEARS
WARRANTY

- Freestanding inner rigid polyurethane d.70 kg³ covered with injected polyurethane foam, d.60 kg³, 100% recyclable.
- Musa components have been tested in reverberation room in accordance with uni en iso 354:2003 standards

Vision

Design by Stefano Sandonà

Vision is upholstered with soft polyurethane and an internal iron frame, supporting everyone whilst also avoiding any structural deformations. Vision's range includes the President, Meeting, Lounge and Stool. Each chair conceals all mechanisms within the upholstery and shaped shell.

The President is equipped with a self-balancing Synchro mechanism, which enables the chair to ergonomically adapt the backrest tension to support you. The chair also features backrest inclination up to 3 different positions, offering you the ability to adjust the height as you need.

The Meeting chair is available in a rotate only option, an additional gas lift option for height adjustments, or with an additional backrest mechanism that allows the back to tilt.

The Lounge has a self-balanced synchro mechanism, with a backrest which can be locked in 4 different positions.

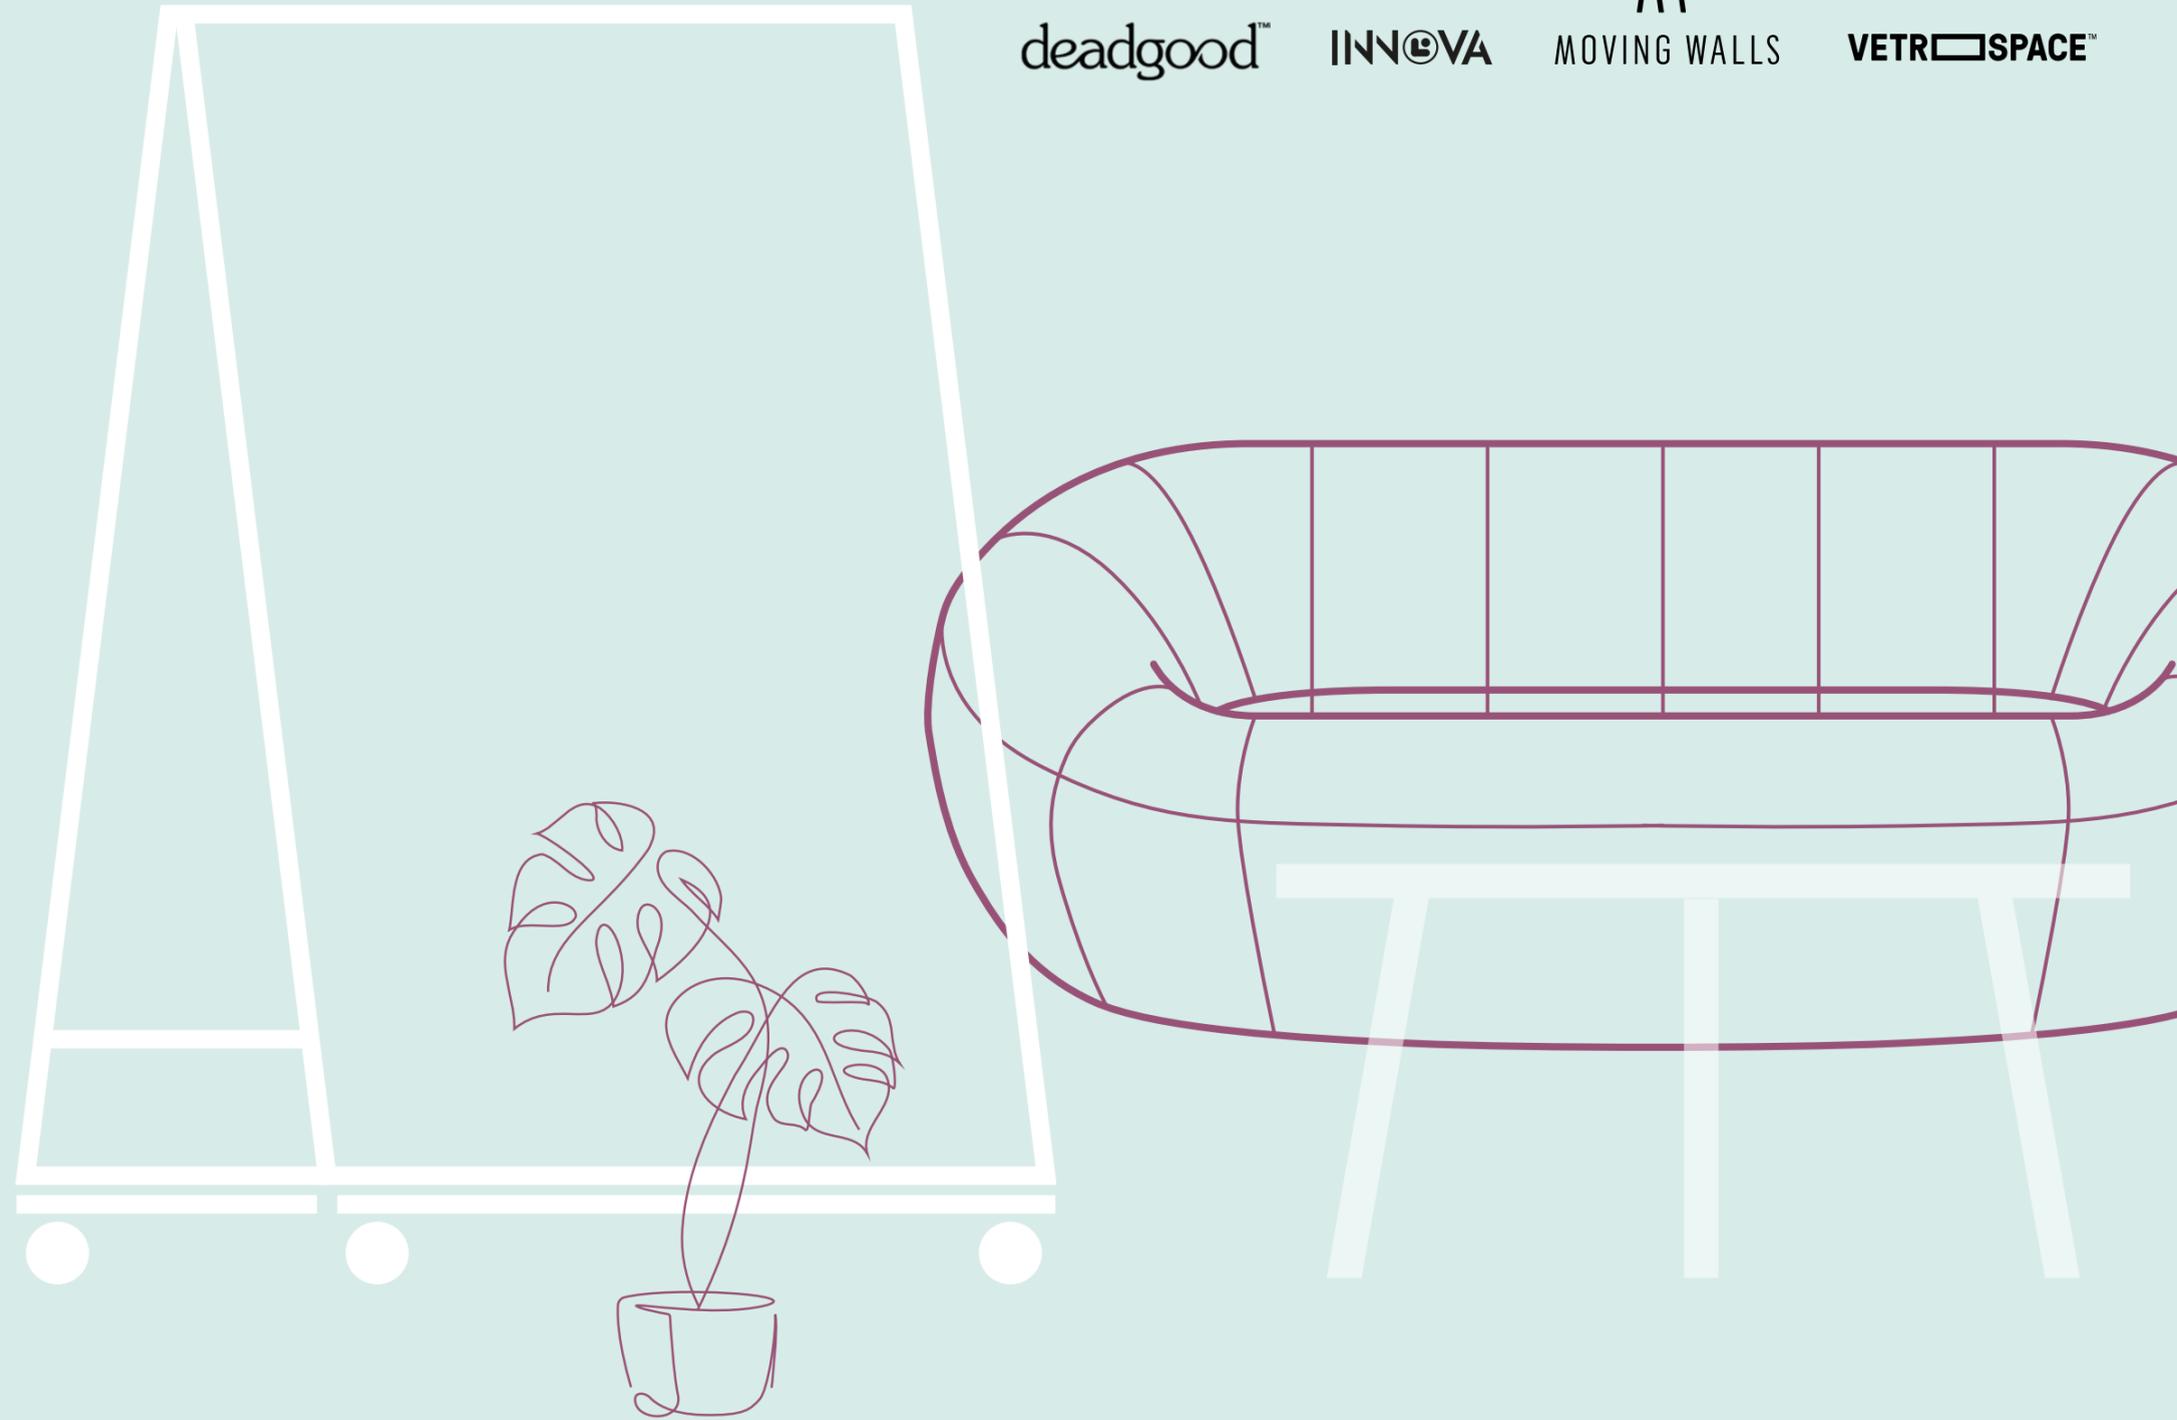

- Seat height from 410mm to 710mm

PARTNERS

We're unashamedly passionate about storage – it's at the heart of everything we do and where we've built an unrivalled expertise for over 80 years.

We're proud to partner with other companies who also value and strive for excellence, looking for only the highest quality in their products. From pods to soft seating, we offer the perfect companions to our beautiful storage ranges to provide you with a superior office environment.

Capsule

The Working Collection's aesthetic combines simple utilitarian styling with a robust material choice. The bar stool features a powder-coated or raw, recycled steel frame and an upholstered seat. Each item in the seating range stacks vertically, with the timber model boasting a handy aperture that enhances portability.

Working Lounge

Boasting 99% recyclability and an 80% recycled content, our Working Lounge Chair combines sustainability with simple utilitarian styling.

Marra

A simple yet distinctive range of occasional tables, manufactured out of plywood with an Ash veneer, whose detailing is inherited from the method of construction. Visible notches provide both an effective method of assembly and also a subtle yet somewhat familiar point of reference.

ReWork

Designed by
David Irwin

ReWork is a simple yet comprehensive modular seating collection, designed to meet the demand for dynamic, hybrid workspaces.

Thanks to its flexible design, ReWork can be easily reconfigured and is suitable for focused work, collaboration or a mixture of both and can add structure to open plan spaces, create a focal point within an interior and define areas as required.

The collection is a response to the new working patterns and cultures that are becoming entrenched in the modern workplace

Sprung Chair

Sprung is a versatile lounge chair with sustainability at the forefront of the design process. 99% of the materials are recyclable at the end of their life, whilst 81% are produced from recycled content.

Flare

Flare is our new modular sofa range that explores circular design principles. A plug in seating system that can be expanded and reconfigured as required, with materials and components designed to be easily separated for recycling. Available with a low or high back in multiple variants, either as a sofa or individual lounge chair.

Setter

Setter boasts a solid oak frame and backrest, with the possibilities of a hard or soft seat pad. Compound angles to the rear provide some subtle mid-century inspired detailing, whilst the curve on the back doubles up as an arm rest.

Woody

Woody is a fun and practical upholstered seating collection that plays on the distinct aesthetic of a fallen tree. A reconfigurable solution for the modern workplace, available as either a stool, bench or curved seating section

Love

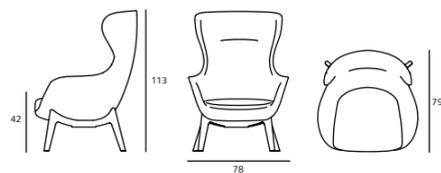

The Love Collection is available in single, double or three-seat versions with either a low or high back. Deep wings offer the user privacy when taking a call or holding an informal meeting, whilst the four solid timber legs offer a domestic look and feel.

Naked Chair

The Naked Chair comprises a simple powder-coated metal frame with a perforated steel seat and backrest. Based on raw metal beginnings, this stacking cafe chair is suitable for a wide variety of environments, both indoors and out.

Cloud

An armchair with rounded and sinuous lines, to be finished with different and even contrasting fabrics and colours. Perfect at home, in a hotel, or the office.

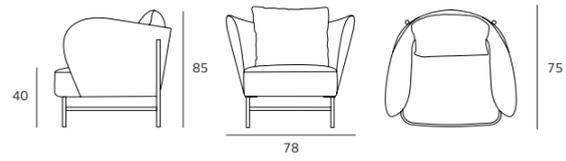

Vice Versa

The Vice-versa collection says goodbye to boredom! Simple and elegant, its name is clear: direction doesn't matter, and the result will be what you want: chair, bedside table, bench, even a coworking station.

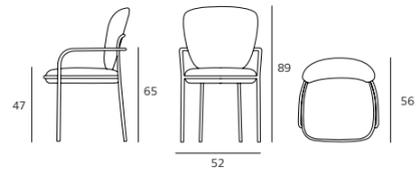

Circus

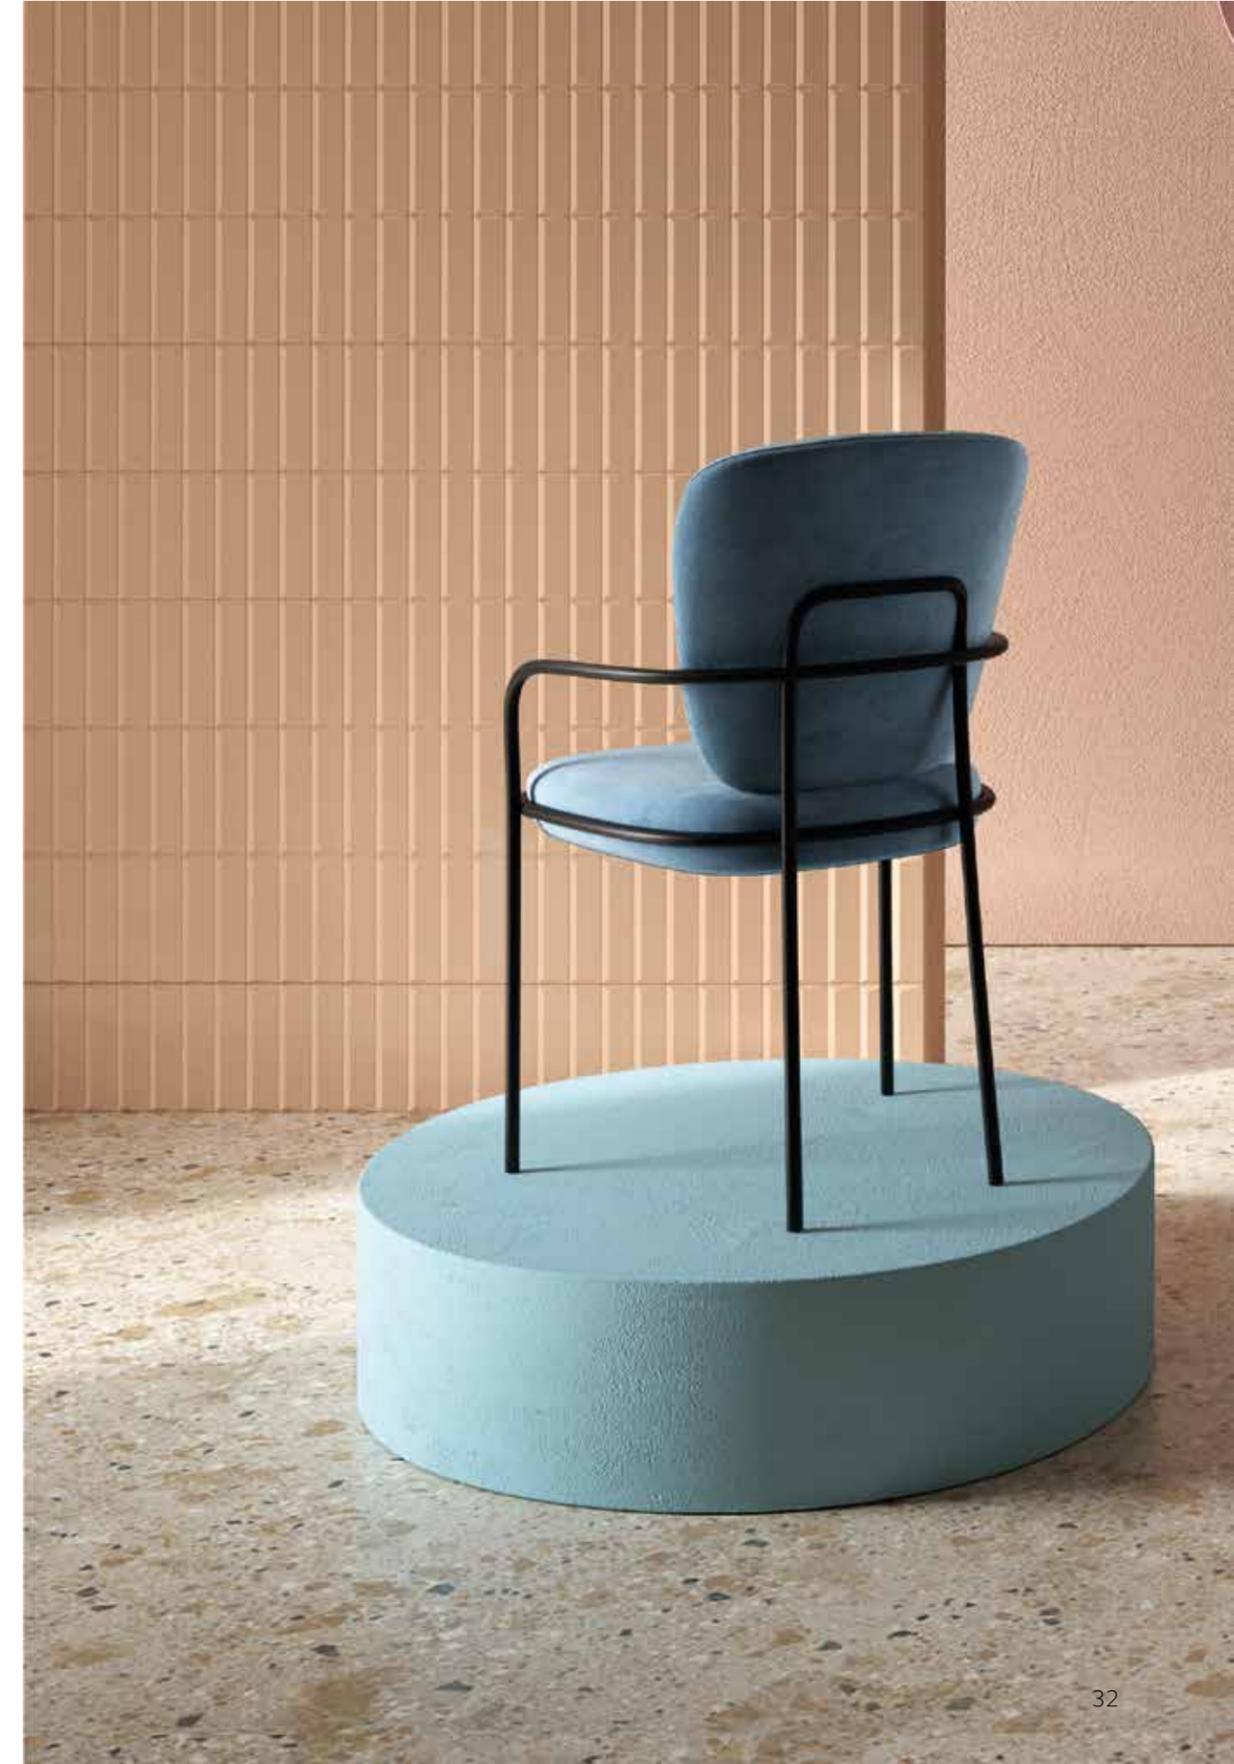

The stature of Circus high is a promise; maintained, not only in its softness but also its confidentiality, with a class that is almost regal.

Mies

A tribute to a great master: essentiality and simplicity characterise the repeated rays of the structure and the illusion of a suspended seat.

Vetrospace

The safest pods in the world.

Introducing Vetrospace, soundproof phonespaces and office pods designed to create peaceful and healthy working environments where you can focus. Using innovative patented technology, the pods are proven to dramatically increase productivity and wellbeing by eliminating all particles that cause fatigue and illness, including COVID-19 – a first for any pod.

Vetrospace leave no room for bacteria, poor air quality and noise distraction, leaving you free to maximise productivity and wellbeing in the workplace.

With three specification levels, seven sizes (1m² to 12m²), and five structural layouts, Vetrospace can be easily specified to suit any work environment, with hygienic furniture available to fit your pod too.

Vetrospace. More than just a pod.

VETRO  **SPACE**™

Moving Walls

Moving Walls is a multifunctional system that connects the agile workplace and promotes creative collaboration. The modular range interconnects to build upon the workspace, expanding vertically to make the most of wall space, or create new ones.

Mobile, magnetic and writeable, the Moving Wall is a brilliant tool for agile working and space creation. They can be used individually or linked together in a straight line or circular arc, without interrupting the flow of writing. Mounted on wheels, they are easy to manoeuvre, and come complete with a handy storage shelf underneath.

The combination of Moving Walls and Bisley storage allows the creation of productive, flexible spaces for people to come together to work creatively and effectively.

The Moving Walls System:

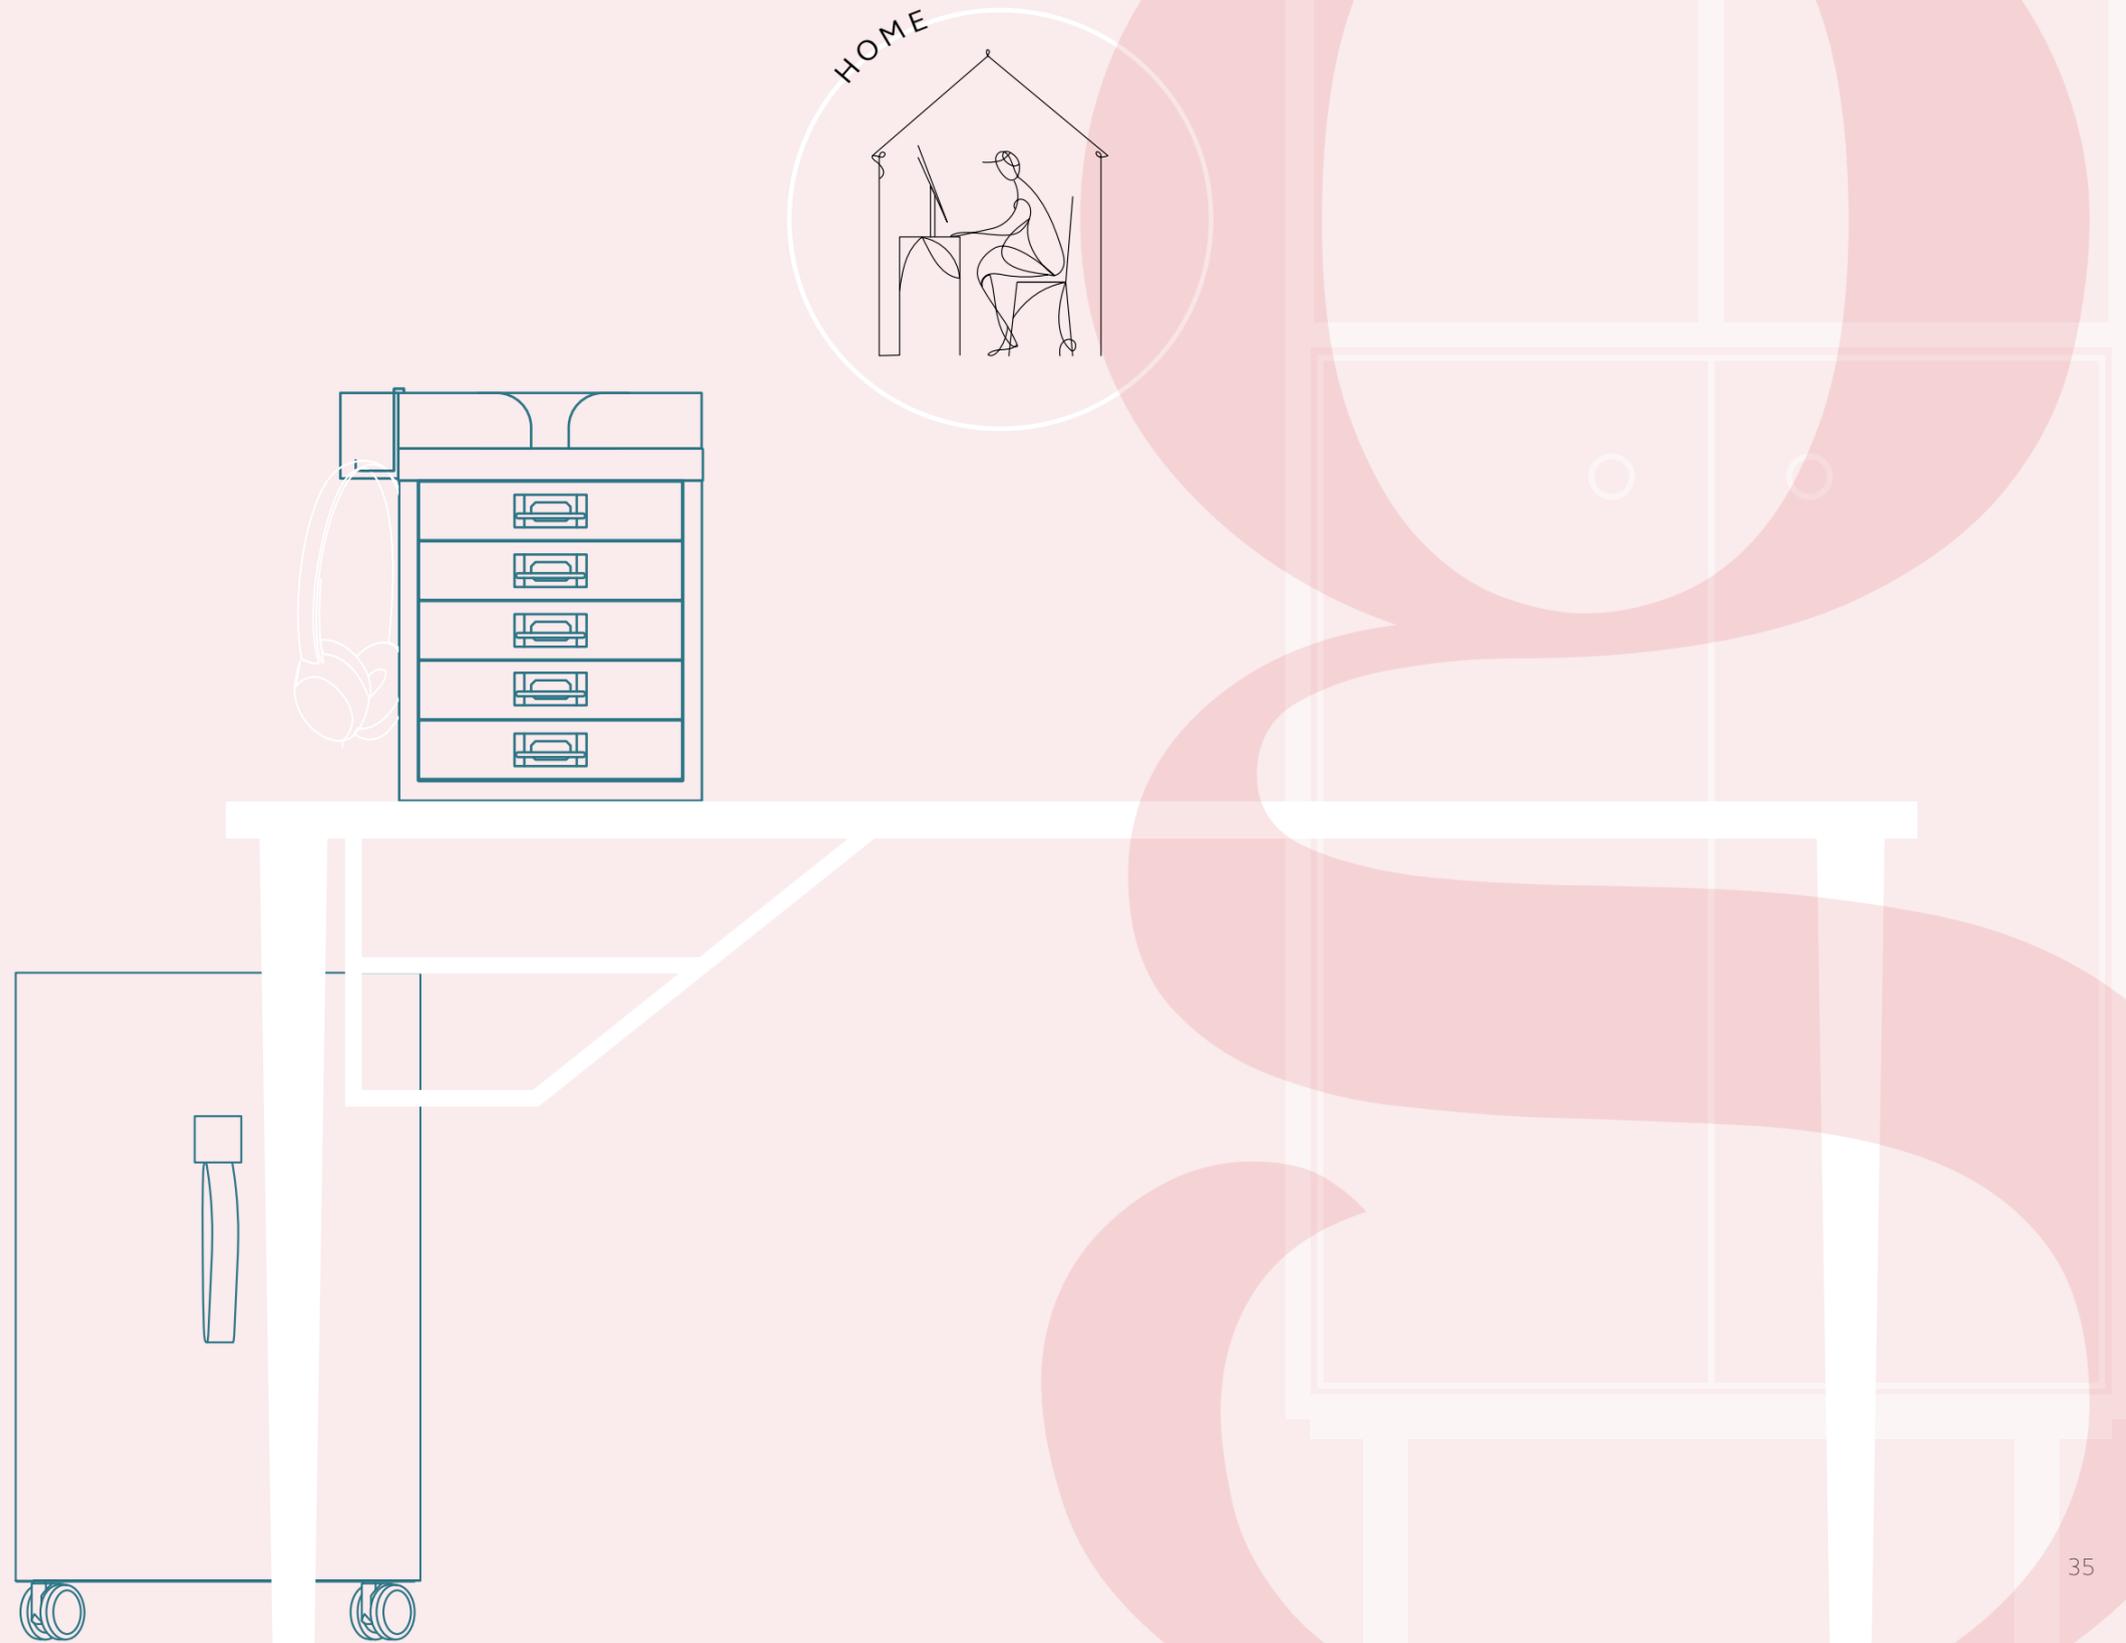

- Moving Panel - an extension of the Moving Wall.
- Moving Acoustic Panel - improves acoustics and simultaneously serves as a pinboard.
- Moving Rail - magnetic rails allow panels to be mounted to the wall.
- Moving Table - a writable lightweight table top also serves as a large presentation board.
- Moving Cup - a magnetic pen holder, can be easily pinned to the Moving Wall or the Moving Panel.
- Moving Stool - made from recyclable formfleece, the conic shape allows for practical stacking.

MOVING WALLS

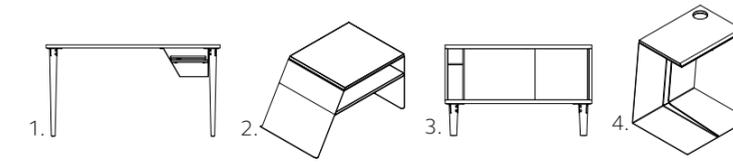

BELONG

Hardworking storage is vital. We can help you create integrated working environments that enable focused working and evolve with your changing needs. The ranges featured here provide flexible options to help you design smart storage systems that really work.

Poise by Bisley

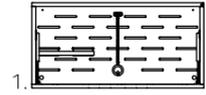

Balance productivity and style with Poise by Bisley.

Create a sanctuary wherever you work with our new Poise range. Poise works beautifully as a standalone piece or suites stylishly together as a collection. Made out of natural materials, the minimalist ply contrasts exquisitely with the steel and aluminium, adding a sweep of colour to your workspace.

- 1. POISE DESK**
Desk with plywood desktop, oak legs and suspended steel storage sleeve
- 2. POISE COFFEE TABLE**
Coffee table with aluminium legs and plywood shelf and table top
- 3. POISE SIDEBOARD**
Plywood storage unit with sliding doors and wooden legs
- 4. POISE TASK TABLE**
Task table with plywood top, aluminium leg and cut-out cup holder

- Choose from 34 steel paints
- Made from laminated plywood with solid wood tapered legs
- All Poise by Bisley products have a five-year guarantee

Hideaway Wall Desk

Maximise functionality in style, wherever you are.

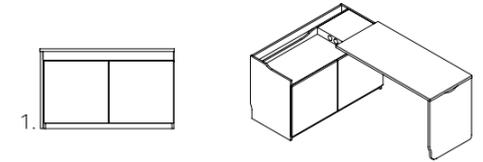

We understand that multi-functional spaces need clever, thoughtful furniture solutions. When space is at a premium, the Hideaway Wall allows you to work when needed and then discreetly fold your whole set-up away when you're finished.

- Choose from 34 steel colours and 8 wood finishes
- Complete with light and USB charging ports
- Compatible with Mosaic hanging accessories
- Hideaway Wall Desk has a five-year guarantee

Hideaway Swing Desk

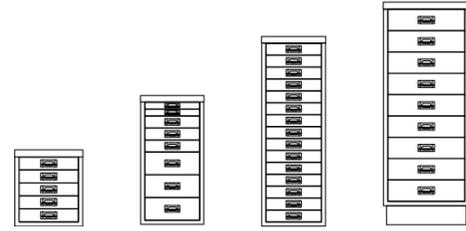

Seamlessly move back and forth between work and home, without ever changing location.

Transform your space from a sleek and stylish sideboard into a working, functional desk in one subtle move.

With a luxurious finish suitable for a variety of settings, Bisley's Hideaway Swing Desk moves out at 90 degrees to form a desk so you can work, rest and store throughout the day. And, when you're finished, Hideaway Swing transforms back into a beautiful sideboard, perfect for kitchen, dining and living room spaces.

- Choose from 4 laminate finishes and 5 Perfect Sense MDF finishes.
- Complete with USB and pin plug charging point
- Push to open doors and internal drawer
- Hideaway Swing Desk has a five-year guarantee

MultiDrawer

The MultiDrawer by Bisley is a design classic that's as versatile as it is iconic. Compact, robust, and available in a broad range of colours, it fits in any setting, from home offices to industrial workshops and everything in between.

Originally designed in 1958 and awarded the Design Guild Mark in 2017, the MultiDrawer can be used to organise all sorts of things in the home, office or workshop. Available in different drawer heights with the option of multi-compartment insert trays for small items. There are three ranges of A4 MultiDrawers as well as an A3 range.

- Winner of the Design Guild Mark award
- Choose from 22 paint colours
- A range of accessories available to purchase separately
- Compatible with the Belong MultiDesk range
- All MultiDrawers have a five-year guarantee

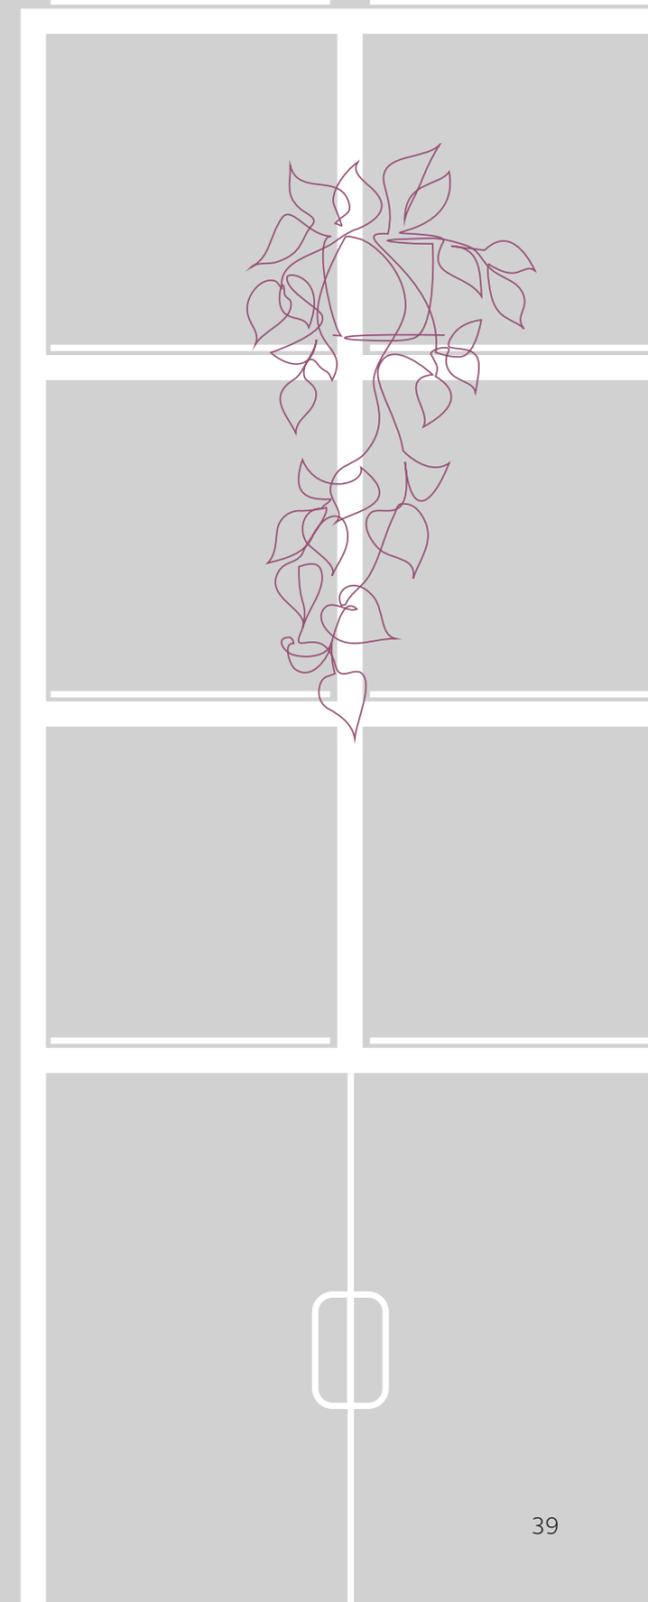

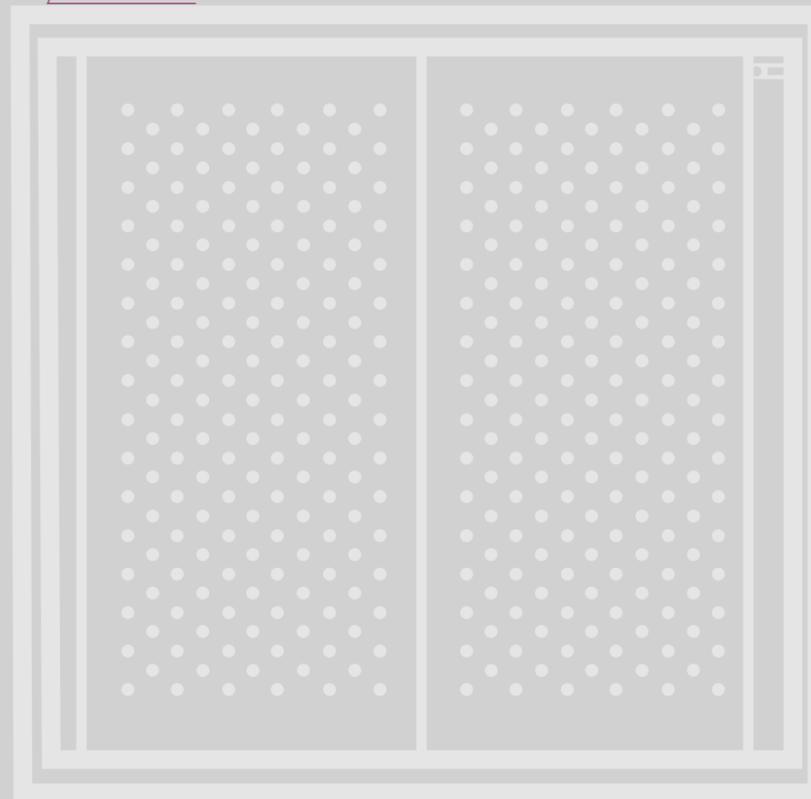

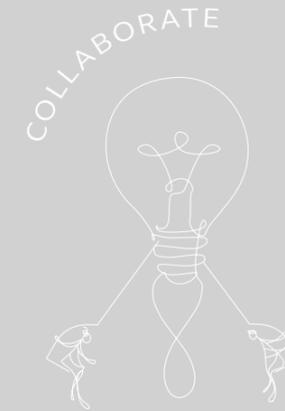

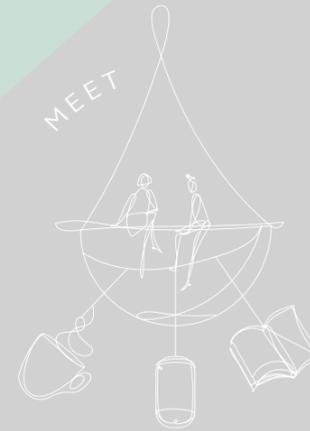

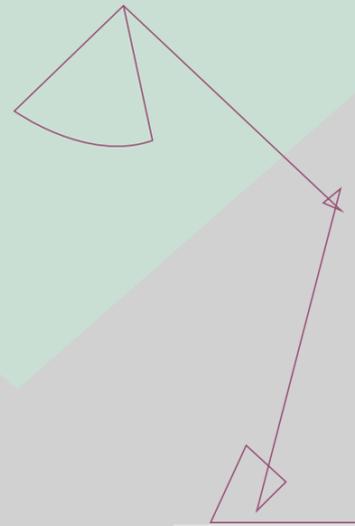

STANDARD STORAGE

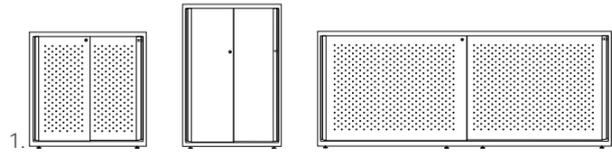

As we said before, hardworking storage that is suitable for all your activities in the office is fundamental. To support an uplifting, productive workspace or storage options for both front and back of house. We can provide storage solutions to keep your office equipment and personal belongings safe.

Hardworking storage that is suitable for all your activities in the office is fundamental. To support a productive and collaborative workspace, offering storage options for both front and back of house is vital. We can provide storage solutions to keep your office equipment and personal belongings safe, while also providing style and colour to blend with your office aesthetic.

Bisley's storage collections, systems and portfolios answer the unique challenges of today's working environments. Whatever product you choose, you can bank on outstanding quality, functionality and style.

Glide

This innovative unit combines clean, unbroken lines with thoughtful details that ensure the sliding doors really do glide.

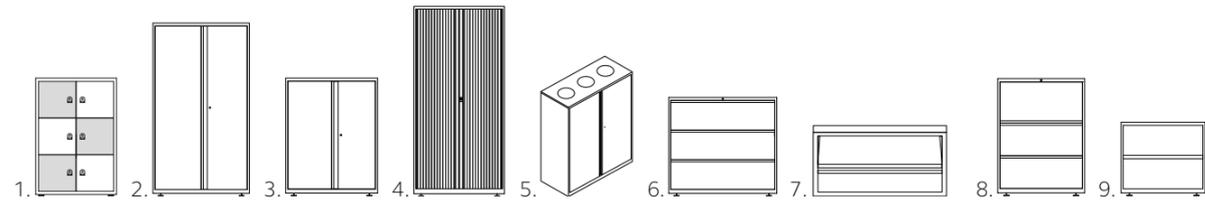

Our high-quality, sliding door storage system is an ideal, space-saving solution for open-plan work environments. You can choose bespoke timber tops, backs and end-cladding, and we can provide a comprehensive range of optional internal fittings, including roll-out filing frames and drawers.

Door options include plain, perforated and acoustic dampening - which better absorbs noise from the hustle and bustle of a busy office. Glide particularly complements our Lateral File products, but fits well with all of our ranges.

- Choose from an extensive palette of 34 steel paints
- Choice of plain doors, perforated doors or acoustic doors
- A range of internal accessories available to purchase
- All Glide products have a ten-year guarantee

LateralFile

Incredibly versatile, with a superior minimalist design and a seamless finish, LateralFile is a true furniture systems approach to storage, enabling an entire floorplan to be specified in one product range.

The wide variety of options can meet the needs of even the most challenging filing and storage requirements.

The LateralFile range is stylish and high-quality, with a seam-free design and soft-close double-skin doors. With a strong reputation and a timeless aesthetic appeal, LateralFile is first choice for architects, designers and end users around the world.

1. LODGES

Secure personal storage compartments ideal for use by colleagues, visitors or remote workers. Choose from a variety of locking solutions including smart locking technology or more traditional key and combination locks.

2. COAT CUPBOARDS

Available in multiple sizes with a coat rail, shelf, and either solid or ventilated doors.

3. TWO DOOR UNITS

Durable two-door cupboards with soft close doors. Ideal for storing multiple types of media.

4. TAMBOUR DOOR UNITS

Fully retracting shutter doors, ideal for use in challenging spaces and walkways as an alternative to drawers and cupboards.

5. RECYCLING UNITS

Discrete waste management, with three 50-litre recycling bins and hidden storage.

6. DRAWER UNITS

Lockable filing drawers for suspension, box and lever arch filing.

7. MAGAZINE UNITS

Sloping shelves, ideal for displaying magazines and product literature, and a concealed shelf for storage.

8. COMBINATION UNITS

Choose from a flexible range of different closure options including flippers, drawers and cupboard doors to tailor make your own configurations.

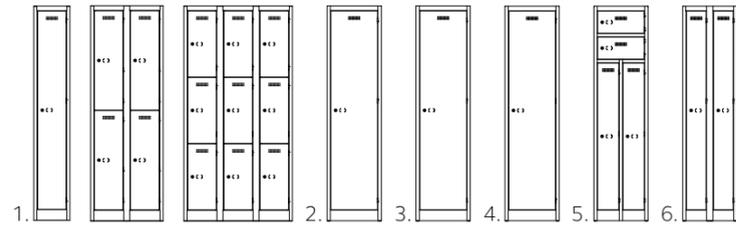

9. BOOKCASE UNITS

Bookcase units with 300mm deep shelves, ideal for displaying literature.

- Choice of 34 steel finishes and 8 wood finishes
- Multiple locking solutions available for Lodges
- All LateralFile products have a ten-year guarantee

Primary Lockers

Robust, versatile, and hard-wearing - Lockers crafted for the workplace.

Primary Lockers by Bisley span a wide range of sizes and configurations, allowing you to stow your personal belongings, workwear or equipment as required. With perfect sized compartments to suit every need; whether you're storing uniform and bulky items, to separating your clothes from dirty overalls. Designed for durability, these lockers are aimed at fulfilling tough 'back of house' storage requirements, but the neat and minimalist design means they will look great in changing rooms and customer-facing cloakrooms too.

This straightforward locker range is easy to specify with additional accessories available including benching, feet, and a choice of locking options.

Available in single columns or nests of up to four lockers, Primary Lockers work around your space and capacity.

1. EVERYDAY LOCKERS

The Everyday Locker is a workplace essential. Available in a range of heights, widths, depths, and divided into one to six doors, you can choose a configuration that best suits your workforce's personal storage requirements.

2. POLICE LOCKERS

Manufactured in line with industry standards, the single door Police Locker comprises of two large compartments, a top shelf designed to store Police headwear, and hanging space below with a coat rail for uniform.

3. CLEAN AND DIRTY LOCKERS

A single door locker divided into two clothing compartments with hanging rails, perfect for separating clean clothes from dirty overalls. With shelving above, there is also space for your personal belongings to be kept clean and safe.

4. COMBI LOCKERS

The Combi Locker features a narrow hanging space with a coat hook and a series of internal shelves above and to the side, enclosed behind a single door.

5. TWO PERSON LOCKERS

The Two Person Locker has two secure doors that are private to the user, with hanging space and coat hooks inside. There are also two individual lockers for each of the users to access, stacked on top of the unit.

6. TWIN LOCKERS

Tall and sturdy, the Twin Locker provides ample hanging space to stow longer items of clothing. With two individual doors, this unit is suitable for two users. Behind each door, a hanging space with a coat rail is provided, plus a shelf above to stow personal belongings.

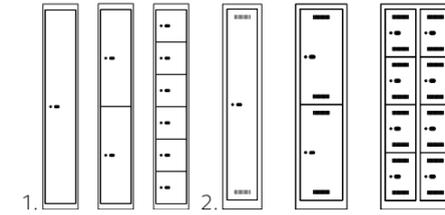

- Ventilated doors to allow air to flow through the lockers
- Strong piano hinges withstand rough handling
- Available in galvanized steel or Biocote paint*
- Choose from a selection of locks to suit different industry needs

* Surcharges apply

CLK and MonoBloc Lockers

Bisley lockers are always sturdy, secure, and long-lasting. Highly adaptable, they can easily fit with your organisation's needs.

Ideal for back-office use, or to equip a changing room area, both our CLK and MonoBloc lockers provide an affordable solution for personal storage. We've given special attention to quality, ensuring we include concealed hinges, clean lines, and welded construction throughout our lockers' design.

We can give you a choice of dimensions and internal fittings that are available, as well as a range of locking options, such as key, combination or custom options.

As the locker ranges are so flexible, they provide a solution for every scenario.

1. CLK LOCKER

The CLK locker unit comes as a single column, and can be ganged together to create large banks of lockers. There are one, two, four and six door options available.

2. MONOBLOC LOCKER

The MonoBloc locker is available in banks of up to four columns, and in one, two, three and four door options, and the units bolt on to each other so you can build to fit your organisation's needs exactly. This versatile locker includes ventilation, and there are additional optional features available such as sloping tops and benching.

1

- Choose from a broad range of 12 colours
- CLK lockers have a five-year guarantee

2

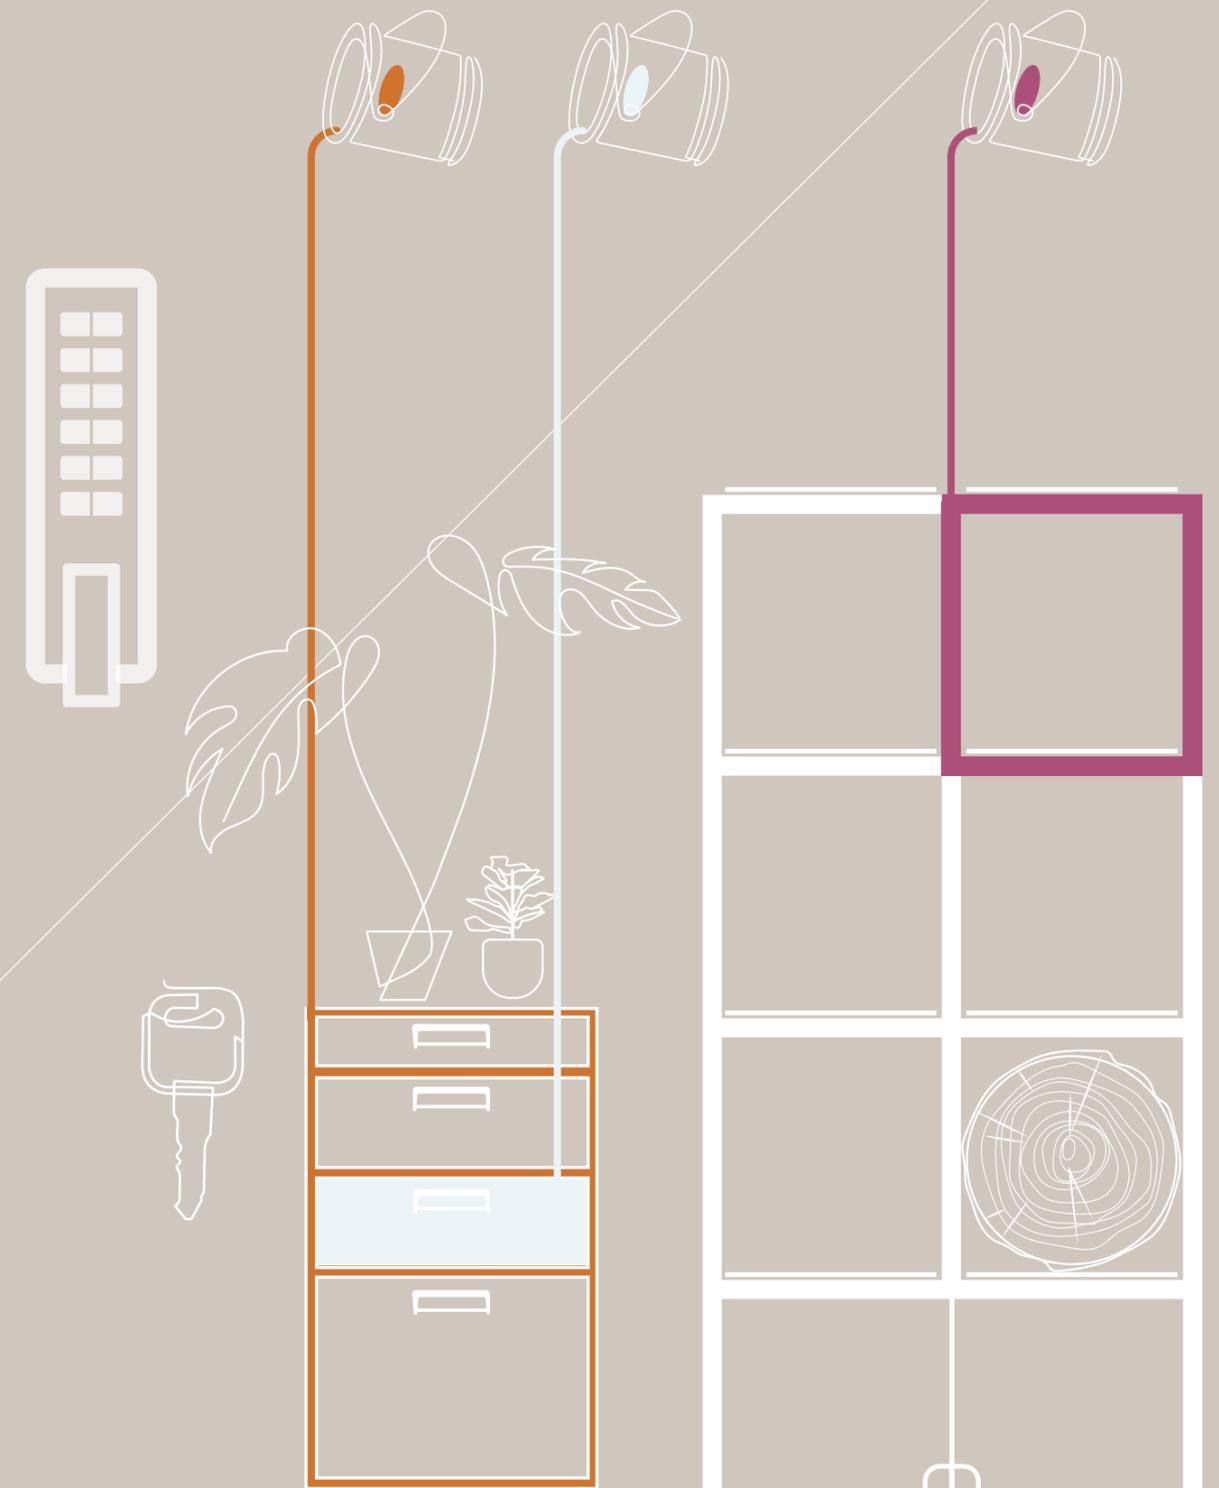

- Choose from 12 colours
- Monobloc lockers have a five-year guarantee

FINISHING TOUCHES

Precision engineered and built to last, your Bisley product will keep on working as hard as the first day you got it.

As Europe's leading manufacturer of steel storage solutions, we understand how to get the best out of this great material. Nobody knows steel like Bisley, but in the last few years, we've built a rich expertise in wood materials too - the natural partner of steel. Our dedicated team of designers have been joined by wood manufacturing specialists; applying the same knowledge that developed our iconic steel storage solutions to wooden furniture ranges.

We also offer a huge steel paint palette and four impressive wood material palettes, so whatever your requirements, we have the skills and flexibility to help bring you beautiful, bespoke solutions.

Paint

Locking Solutions

When it comes to specifying bespoke lockers for your workplace, Bisley is the name people turn to for quality they can trust.

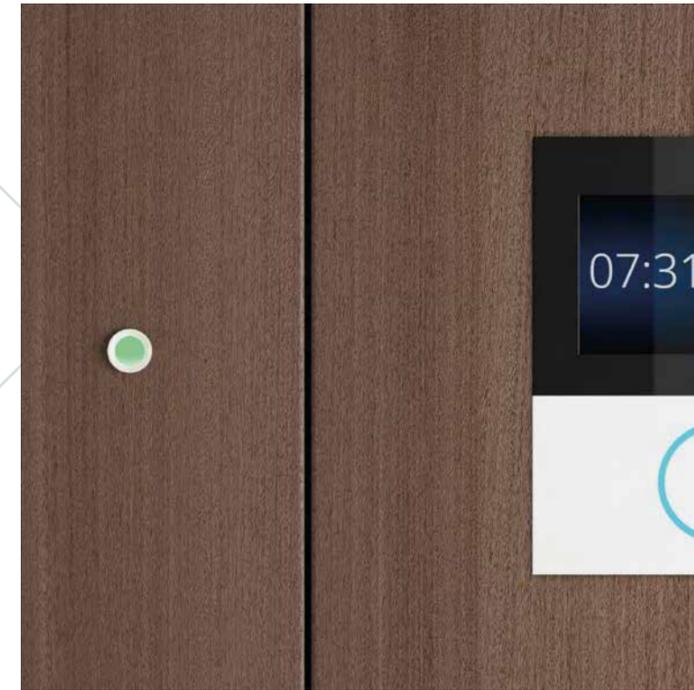

We design and manufacture the highest quality personal storage lockers, but we also have the knowledge and expertise on hand to advise you on the best lock choice.

With our smart locker solutions, you can drive workplace efficiency and give employees a sense of belonging with dependable, flexible security.

Utilising our many years of experience, we can recommend a selection of the highest quality options, but we will always accommodate customer specific security requirements, working with a variety of trusted lock providers.

Our range of lockers and lock partners, both electronic and mechanical, can meet even the most challenging privacy and security requirements of the modern workplace.

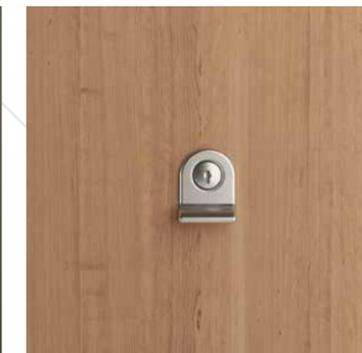

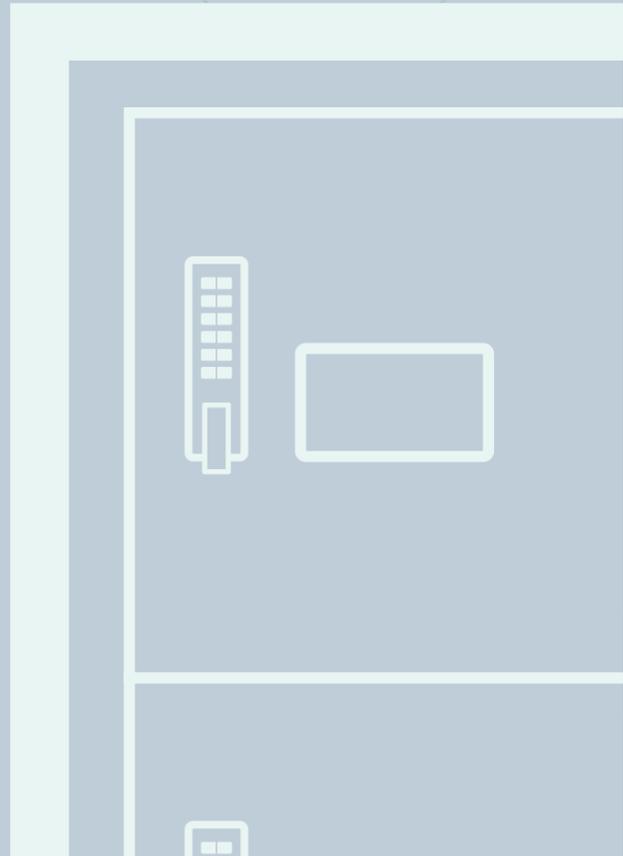

Smart Lock software - the future of secure storage

The latest locking technology comes in the form of smart lock software. Take away the hassle of key management, on-site presence, and sub-par security – smart lock software puts you in complete control.

Control tablets can be embedded into your storage, or for an even slicker application with maximum efficiency, certain locks can now be linked up to real-time smart locking wireless networks, controlled via an app on your phone or device, from anywhere in the world.

Managers can remotely control access, limit contact, and allow for personalised features to be added. Hard-wired locking systems can be configured to permit and deny access for users and switch the control of the locker from private to public to sharing mode when required. They also offer the highest level of security with automatic anti-theft alarms.

Our commitment

Better for you, better for the environment

“At Bisley, we often use the phrase that our furniture is Made for Life. And while that is true of our products, we also take that ethos into every part of our manufacturing processes and company culture. We want furniture that lasts a lifetime; made from the highest quality materials, using the latest innovative technologies and processes with minimum impact on our environment.”

Richard Costin, CEO

As a proud British manufacturer, we take our responsibilities towards the environment very seriously. Our dedicated CSR Team ensures that our facilities are as sustainable as possible, while making sure that our products last and are sustainably sourced.

Bisley products are designed for functionality, durability, and a long service life. They are all tested rigorously to British and European harmonised standards for safety, strength and stability. We have also invested in the undertaking of Life Cycle Analyses (LCA) for much of our steel product portfolio, to fully understand their environmental impacts in terms of global warming, acidification, eutrophication, ozone depletion and other indicators across all phases of a product's life cycle - from cradle-to-grave.

Our products are made from high-quality steel and wood, making sure that our products are strong, resilient and will stand the test of time. Steel's durability means that it has a long lifespan, and should a product eventually need to be disposed of, then steel is 99% recyclable and doesn't lose its quality when recycled. In our factory, where possible, we source as much of the cold rolled steel coil and sheet that we use in manufacturing as possible from the UK market.

As for energy, we source all of the energy that powers our manufacturing activities through a renewable energy tariff and we also participate in the Energy Savings Opportunity Scheme (ESOS), which has led to substantial investment in procurement and installation of energy efficient machinery and equipment.

CLIMATE ACTION

- To achieve carbon neutrality by 2030, through reduction activities and accredited offsets.
- Alignment to the UK Government net zero target of 2050 and by extension, the Paris Agreement through aggressive reduction of emissions both from our direct operations and other value chain elements. Targeting emission reductions of 3-5% year-on-year.

DECENT WORK AND ECONOMIC GROWTH

- To provide stable, fair, and equally paid work to all of our employees.
- To work actively to decouple business growth from increased resource consumption.
- To promote youth education through our apprenticeship scheme.
- To ensure eradication of modern slavery not only within our own operations but throughout our global supply chain through provision of our supplier code of conduct and auditing.

REDUCED INEQUALITIES

- To continue to pay our staff at minimum, the UK Living Wage.
- To promote a culture of inclusion, irrespective of age, sex, disability, race, ethnicity, origin, religion, or economic status.
- To continue promote equality within Bisley through compliance to relevant legislation, policy development and supporting action.

RESPONSIBLE CONSUMPTION AND PRODUCTION

- To make increasingly efficient use of natural resources including water and raw materials throughout our manufacturing activities.
- To continue to responsibly manage chemicals and waste at our manufacturing sites in alignment with international frameworks and relevant legislation.
- Achievement of zero waste to landfill by 2030.

Bespoke by Bisley

Manufacturing excellence that's engineered around you.

People come first at Bisley. Whether you're a customer, dealer, architect, or designer, you benefit from a service that's engineered entirely around you and your needs, our service, Bespoke by Bisley.

Everyone is different which is why our designs flex to be as individual as the people and organisations that use them. Should you need help with planning anything, from a bespoke design to an entire building layout, we have a dedicated design team ready to support you. We can talk you through all the options – from dimensions and accessories, to colours and finishes, or even assist with putting together a precise design specification. Whatever your project, we'll put our expert knowledge to work for you, helping you get the best from your Bisley products.

We regularly accommodate bespoke requirements – from having existing Bisley products finished in an organisation's brand colours, to resizing storage units to match a specific layout. We're also able to design, manufacture and deliver entirely bespoke products.

Whatever you need, we'll take care of it.

We've refined our expertise over the decades but have never stood still. We embrace change to offer innovative solutions that meet the evolving needs of our working world. Our products benefit from our knowledge and from the latest technologies, to ensure that we continue manufacturing to the highest of standards.

Precision-engineered and built to last, Bisley is trusted around the world for quality filing and storage solutions. We adhere to manufacturing excellence and all our furniture is made with care, making sure that you can count on a Bisley product for years to come.
